

PALMER ACTS IN FOOD FIGHT

PERMITS TO BE SOUGHT IN CITIES, COUNTY

Farmers and Merchants Assn. Obtains State Charter As Initial Move

OBJECT IS TO GATHER, GIVE OUT INFORMATION

Service To Members To Be By Wire; Project Will Cost \$1,000,000

HALTED for a few weeks by refusal of the Secretary of State to issue a charter for a mutual telephone company in this county, but by no means defeated, the committee of eight representative men selected at mass meetings in the different exchange districts of the county have bobbed up serenely with a new plan for accomplishing their purpose.

Today they form the nucleus of the Orange County Farmers' and Merchants' Association, the officers of which are authorized to apply at once to the Board of Supervisors and the councils of the incorporated cities for franchises.

They already have a state charter for the organization with the eight men named as directors. They are Chas. Eygabroad, Anaheim; H. A. Lake, Garden Grove; L. P. Drake, Fullerton; E. W. Bolinger, Orange; H. C. Head, Santa Ana; H. B. Woodruff, Newport; H. H. Hale, Placentia, and Wm. Belding, Tustin.

They are ready to go to bat now in earnest and will welcome a suit by the Bell interests or the attorney general of the state. They court such a suit and will defend their rights to the last ditch. They believe they are without the jurisdiction of the railroad commission and that that body will have nothing to say in the matter of the association being granted franchises in the county and cities.

Information for Members.

The purpose of the organization is for gathering and compiling information for members, such information consisting of financial, crop, weather, market and other reports that might be of service to the members.

Committees were appointed at a meeting on Aug. 5th, one to make arrangements for the reports and another to recommend the best method for disseminating the information collected in the office of the association. Those committees reported last night at a meeting held in the Chamber of Commerce rooms, and the report of the committee on the method of communicating the detailed information recommended that it be done by telephone.

Accepting the report, the president and secretary were authorized to at once make application to the supervisors and city councils for franchises. The law firms of Rutan & Head and Eden & Koepsel, who have been handling the legal phases of organization, will draft the franchises.

When the articles of incorporation of the Orange County Mutual Telephone Association were returned here unopposed, the legal advisers of the board at once set to work to develop a plan for carrying out the object of the telephone subscribers of the county when they elected the eight men to devise ways and means for the instituting of a mutual company to "buck" the existing company.

Camouflage Works Fine.

The formation of a Farmers' and Merchants' Association was decided upon and application made for a charter. The charter was promptly granted, the camouflage working like a charm.

The plans for financing the big proposition are yet to be worked out, and this important phase of the work was delegated to Eygabroad, Belding and Drake, all of whom have had considerable experience in the organization of mutual companies for other business operations.

The directors are contemplating a

Plan New Mutual Phone System

Sons of Banker With Hose Beat Off Jap Rowdies

SAN FRANCISCO, Aug. 13.—When a crowd of Japanese rowdies at Kobe insisted upon peering into the cabins occupied by women passengers of the Pacific Mail steamship Equador and were ordered away, they started a riot and attempted to board the ship.

Armed with a big brass nozzle of the ship's hose, Quartermaster George O'Brien and Edgar David O'Brien, sons of the President George O'Brien of the American National Bank here, withstood the rush, split the head of the mob's leader and threw them back.

The Equador will arrive here today.

SECRETARY DANIELS AND PARTY DEPART ON HONOLULU TRIP

BY M. D. TRACY

ON BOARD BATTLESHIP NEW YORK, via East San Pedro, Cal., Aug. 13.—With Secretary Daniels and his party aboard, the New York was well out from San Pedro early today, en route for Honolulu. The secretary was on the bridge when the New York moved away from its anchorage.

Daniels said he will wait until he reaches San Francisco to determine definitely whether he will visit the northwest.

The secretary said he plans to send the fleet back through the canal next year for a sham battle with the Atlantic fleet. The following year, he said, he will bring the Atlantic fleet to the Pacific for maneuvers.

When the New York left, G. W. Tews was found aboard as a stowaway. Tews said he wanted to enlist in the fire room crew. When examined, it was found he could not read the optical chart at a distance of five feet.

"This is the fifth time I've been rejected," Tews said when he was sent ashore. "I thought my eyes wouldn't bother down there in the fires."

Ships of Pacific Fleet Are Ordered to Beaches

SAN PEDRO, Aug. 13.—The ships of the Pacific fleet were today ordered to various beaches in this neighborhood.

The dreadnaughts New Mexico and Mississippi, scout cruiser Birmingham, six destroyers, two colliers and two oil tenders have been ordered to remain at San Pedro.

Dreadnaughts Wyoming and Arkansas and four destroyers under command of Rear Admiral Conz will station at Venice.

Dreadnaught Texas and six destroyers will anchor off Redondo Beach Wednesday, Thursday and Friday, and will be moved to Santa Monica for Saturday and Sunday.

Newport Beach has been assigned two destroyers from Saturday until Monday.

At Long Beach the dreadnaught Georgia and six destroyers will be stationed.

These vessels may be visited up to and including Sunday.

CAMPAIGN ON BANDITS BEGUN BY CARRANZA

GALVESTON, Aug. 13.—The Mexican government's promised campaign to exterminate bandits in the Tampico-Vera Cruz regions who have recently maltreated several Americans, apparently was under way today. An official dispatch to the Mexican consul here declared federal troops routed bandits who had raided an American ranch on the Tampico river. The federals captured 200 cattle and 90 horses stolen from the Americans, which will be returned to their owners.

JEWS COMING TO U. S.

COPENHAGEN, Aug. 13.—Reports from Warsaw today said 40,000 Polish Jews were seeking permission to emigrate to America. Wholesale emigrations from central Europe to the United States are expected to begin soon.

SHORTAGE OF NECESSITIES IS DECLARED BY STILLMAN

New York Financier Asserts Labor Will Gain From The High Price Era; Temperate Speech By All Is Urged

NEW YORK, Aug. 13.—James A. Stillman, president of the National City Bank, one of the world's greatest financial institutions, today analyzed the present economic crisis in an interview with the United Press, emphasizing the following points:

The world is short of the common necessities of life and that is the first situation to be dealt with. The high cost of living is the result of the war's destruction, which makes the world short of necessities of life.

Wage earners will come out of the present economic situation the gainers.

Labor may lose now, owing to high prices, but it will gain when prices drop, because wages will not recede in the same ratio.

The present railroad situation should not be considered as a dispute between employers and labor, but as one of national policy.

Railroad men are misled by misinformation, distorted statements and half truths.

Railroad investments as a class are certainly as clean as any other form of investment.

Best Service in World

The public has received full value from the railroads and the best service in the world.

"The general situation at this time is one which calls for temperate speech," said Mr. Stillman. "No man who has any sense of social responsibility will want to say or do anything that will increase the confusion and excitement which exists."

"Patience is a great virtue now. The world has had enough fighting. Organized labor has officially endorsed the league of nations on the theory that the world has reached a stage of civilization where it ought to be able to devise a better way of settling disputes between nations than by war."

"That general principle is just as true in disputes in industry and between classes as it is in international affairs. There should be a better way to settle them than by strikes, lockouts or other means which entail loss and suffering upon the public. We should be able to settle our differences without threats of violence, as becomes a free people. Any fair proposition will win in this country in the long run."

"The war has interrupted industry and made many conditions abnormal. It is responsible for the high cost of living by causing a great scarcity of all necessities. It is just what was to be expected after the withdrawal of so many millions of men from production. The remedy is in orderly industry. The whole situation will right itself as production is increased. Food will go down and clothing will be cheaper."

Falling Price Period

"The country went through a similar situation after our civil war. At first there was scarcity and high prices, but when industry was fully resumed we had a long period of falling prices. It is true that in many instances wages do not keep pace with commodities when the latter are rising, but on the other hand, wages will not fall as fast as commodities when the latter turn downward."

(Continued on page three)

DESTROYERS ORDERED TO STAY 3 DAYS AT NEWPORT

Entertainment for Officers and Men is Arranged By Committee; Banquet and Auto Rides Are Planned

NEWPORT Beach on Saturday next will step into the rank of host to officers and men of real fighting craft of the United States for the first time, and it probably will be the forerunner of many other similar events now that a real harbor is in prospect and with still greater prospects of receiving more recognition from the government than it has in the past.

The destroyers Yarnell and Tarbell will be anchored between Balboa and Newport Saturday, Sunday and Monday, making them available to the pleasure craft from both points.

Newport Beach, alive to the opportunity to bring the harbor to the attention of the navy men, will entertain the officers and men in a manner that will be appreciated by them and give them occasion to long remember their sojourn at Orange county's harbor.

While the Newport people will be sponsors for the entertaining of the navy men, all of Orange county is to have a hand, for the harbor is now a county project—it is a county asset.

An executive committee has been appointed to make arrangements. The committee consists of J. P. Greeley, Lew H. Wallace, R. L. Bisby, George P. Wilson, John McCain, J. J. Schmitz and "Doc" Wilson.

Tentative plans include a banquet for the officers at the Palisades Tavern Saturday evening, luncheon at the Country Club house Sunday and bull's head breakfast at Orange County Park Monday morning.

Monday it is planned to give the officers and enlisted men of the ships, or as many of them as can get shore leave, a ride through the oil well section of the county and the orange, lemon and walnut groves.

Can See Resources

All of the boys come from well-to-do families of the east, and it will be a most excellent opportunity for the county to present its vast resources to the men, all of whom no doubt will have something to say of the county in letters to their parents and other relatives.

There will be about three hundred men on the two destroyers, but it is not believed that more than half of them can secure shore leave at one time. At least fifty or sixty four and five-passenger machines will be required to take the men on the ride.

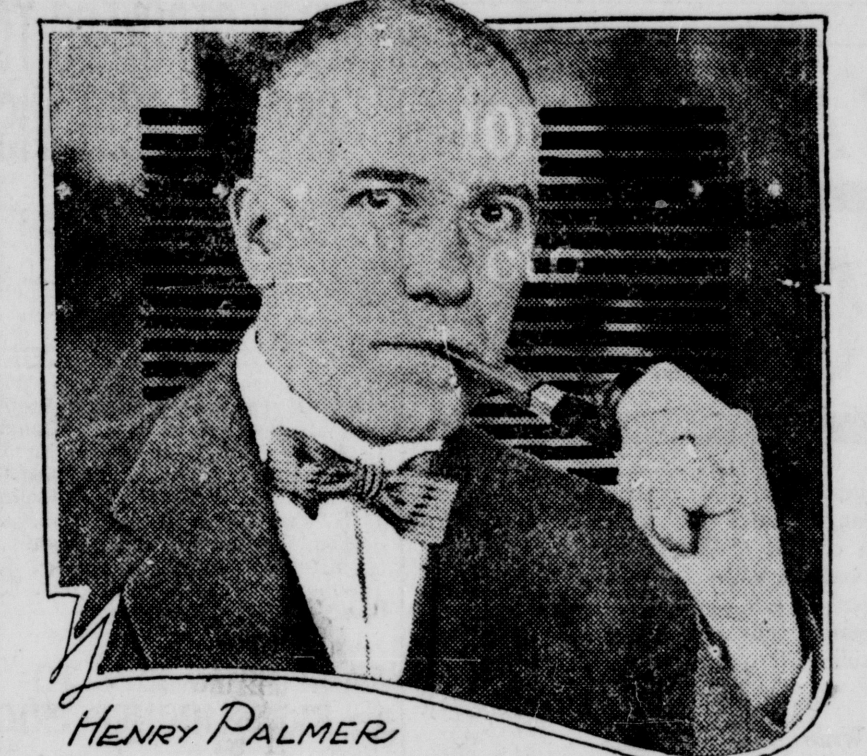

It is not deemed advisable to ask auto owners to contribute their machines on Saturday or Sunday, as they will want them probably for their personal use. Those who will donate their machines for the trip are requested to advise "Doc" Wilson at Balboa. At this time it is not definitely known whether the boats will depart from Newport Monday forenoon or afternoon, hence a definite hour for the ride cannot be announced at this time. This information will be given later through the papers, and those who will give their machines and time to showing the boys a good time should watch closely for further announcement.

A reception committee has been appointed, composed of representatives of many sections of the county, and it is expected that a majority of them will provide their machines for the trip. The executive committee is included in the reception committee, the others being as follows:

H. A. Lake, R. L. Bisby, T. B. Talbert, Howard Wassum, Wm. Schumacher, N. T. Edwards, S. H. Finley, D. Fyman Huff, John G. Mitchell, A. H. Bradford, J. C. Metzger, E. E. Vincent, W. A. Huff, F. L. Ainsworth, C. D. Overshiner, W. B. Williams, Horace Fine, Chas. F. Smith, Hugh J. Lowe, Geo. W. Minter, Geo. A. Edgar, Wm. E. Otis, Chiet Carpenter, Mate W. P. Hughes, J. A. Armistage, Clyde Bishop, A. J. Crookshank, Geo. Shattuck, A. E. Bennett, C. A.

(Continued on page two)

Midst Friends or Foes U.S. Consul Sticks to His Post

American In Siberia Hoping All Russian Army Will Stay In City

WASHINGTON, Aug. 13.—Henry Palmer, American consul at Ekaterinburg, Siberia, has considerable of a job. Fact is he doesn't know sometimes whether he has a job or not. It just depends who happens to be in control of Ekaterinburg on any particular day.

The city where Palmer has headquarters is in the center of the trouble zone of Siberia, the city changes hands frequently. One day the All-Russian government forces hold it, then in turn will oust the Reds.

When the All-Russians are in, Palmer feels that he is among friends and has a job. When they are out—well, he doesn't know, but so far he has stuck to his post and will continue to do so as long as he can. However, he is hoping the All-Russian forces will stick at Ekaterinburg pretty soon so his worries, which are many, will be minimized at least.

BULLETINS

NEW YORK, Aug. 13.—Nine-teen cars oranges sold. Market 15 cents lower. Averages range from \$2.71 to \$7.65. Highest price, 30 boxes Hewes Park, \$7.65. Weather cloudy; 8 a. m., temperature 69. No lemons sold.

WASHINGTON, Aug. 13.—Charges that the Republicans are using money furnished by Germany to fight the League of Nations were made in the House today by Representative Hefling, Alabama Democrat. Opposition to the league is coming largely from places benefited by making of munitions, he said.

SAN LUIS OBISPO, Aug. 13.—A continuance until Tuesday was granted today in the case of Seth Eurt, who is charged with the murder of David McRehouse, night watchman at Paso Robles. The stay is to allow the youthful prisoner's father and mother to testify that the lad is the victim of hereditary insanity.

PARIS, Aug. 13.—Allied military representatives in Budapest reported to the peace conference today that the Rumanians had refused to carry out instructions of the Allies to evacuate Budapest. They asked for instructions how to proceed.

DES MOINES STREET CAR MEN ON STRIKE

DES MOINES, Aug. 13.—Des Moines transportation system was paralyzed today when 600 employees of the street railway company went on strike. The strike vote, taken at 2 o'clock this morning, gave the sleeping city no notice it would have to walk to work this morning.

The carmen, recently granted a wage increase to 50, 55 and 60 cents an hour, struck because no provision was made to give them back pay from March 1, under the new scale. The back pay amounts to approximately \$100,000, or \$150 a man.

CONSPIRACY KEEPS UP PRICES ON L. A. AVERS WHOLESALER

LOS ANGELES, Aug. 13.—The Los Angeles Grocery Company would be able to sell to retailers 15 per cent lower than at present if an alleged conspiracy of the old-line wholesale jobbers did not prevent it from buying direct from the manufacturers, Flavel Shurtliff, general manager of the company, testified before Federal Trade Commission Examiner Karl Steinhauer today.

Shurtliff said that several large wholesale grocers, two sugar refining companies and nineteen manufacturers' agents in Los Angeles are preventing buying direct from manufacturers.

He further stated that retail grocers would be able to sell sugar five per cent cheaper in Los Angeles if this alleged conspiracy was broken.

SHIPYARD AGREEMENT TO BE SIGNED TODAY

SAN FRANCISCO, Aug. 13.—Representatives of employers and employees of shipyards in the San Francisco bay and Puget Sound regions probably will sign an agreement today establishing a new uniform scale of wages and fixing a new working agreement.

The scale will give the men substantial increases.

The agreement, negotiated by a conference committee of seven employees and seven employers, will be presented at a meeting of both factions this afternoon.

It is expected to stabilize the coast shipbuilding industry.

\$1,500,000 IS U. OF C. GIFT BY E. F. SEARLES

BERKELEY, Cal., Aug. 13.—The University of California was richer today by \$1,500,000 as the result of a gift of that sum by Edward F. Searles. The gift consists of 25,000 shares of the Pacific Improvement Company, which is being liquidated.

NEW BOMB BUNGALOW IS FOUND BY POLICE

LOS ANGELES, Aug. 13.—Discovery of another bungalow, believed to have been the meeting place of a clique of bombers, connected with the bombing of the home of Attorney Oscar Lawler, has today added another link to the chain of evidence being gathered by the police here.

Meanwhile the status of Mrs. Maud Kaftz, whose home is still guarded by police, is in doubt. Announcement by the sheriff's office that she would be taken into custody has failed to materialize.

She is being closely questioned by police officials as to her relations with Charles H. McGwire, whose death by leaping from the eleventh story of the Hall of Records here, police believe ends their search for the person guilty of the Lawler home bombing.

PRICES CUT BY U. S. ON SURPLUS SUPPLY

Million and Half Will Be Asked to Start Anti-Trust Action

ASKS CONTROL ACT BE APPLIED TO CLOTHING

Publicity Will Be Used To Compel Hoarders to Put Stock on Market

WASHINGTON, Aug. 13.—Today's developments in the fight against high prices were:

Attorney General Palmer asked congress to extend the food control act to clothing and other necessities.

War department announced further reduction of prices on surplus army food on sale.

Wheat Director Barnes advised the people to use more flour and less higher priced foods.

Attorney Gen. Palmer prepared to give to newspapers full details of food hoarders so hoarders would be forced by public opinion to sell.

Sen. Keller denounced packers in the senate as profiteers and urged cold storage regulations.

A million and a half dollars will be asked by Attorney General Palmer for anti-trust action and legal work to bring down living costs, he declared today. Special lawyers will be retained to make investigation, he said.

By RALPH F. COUCH
(United Press Staff Correspondent)

WASHINGTON, Aug. 13.—"Pillish publicity" will be employed by the government to force the food hoarders to disgorge.

Names of holders of big stocks of food stored away will be made public under a plan being prepared by Attorney General Palmer as another step in his nationwide campaign to suppress profiteering.

Palmer was expected to make this clear in a telegram to be sent today to one of the 100 district attorneys who are hunting the hoarders.

The plan includes publicity for the prices at which food stocks were quoted when placed in storage, together with the time held, present prices and other details.

This information will be given to the newspapers in each community by the district attorney, enabling residents to know just who gets the profit on the food.

Palmer intends, it is said, to create public opinion which will force hoarders to put their stocks on the market immediately and bring down prices.

Nearly complete information as to stocks of food held in storage is in possession of district attorneys in many big cities.

Government Reduces Price Thirteen Food Products

WASHINGTON, Aug. 13.—Reduced prices on thirteen of the food products on sale by the army were announced today by the War Department.

Reductions were caused by retailers who tried to meet the army prices. Further reductions will be made if food prices again decrease. New quotations are basic prices for the products specified.

To these prices must be added cost

FIRST CAR COTS NEW TELEPHONE SYSTEM NOW OFF TODAY FOR PHILADELPHIA SYSTEM NOW PLANNED

Shipment Worth Nearly \$9,000; Another Car Soon To France from Here

The first carload of Orange county dried apricots of the 1919 crop was shipped from the C. C. Collins packing plant today by the California Prune and Apricot Growers' Association. Its destination is Philadelphia, and the shipment weighs 55,000 pounds, and is valued close to \$9,000, valuing the 'cots at 15 to 16 cents a pound.

Another car of dried fruit will leave Santa Ana early next week, bound for France, and about two cars will leave here each week until the entire association output is shipped. The 1919 shipment from Orange county is estimated at ten to twelve cars, of an approximate value of around \$100,000.

The association will also next week ship a car of apricot pits to its big cracking plant at San Jose, with others to follow later.

It is desired to complete the shipments of 'cots and pits without delay, and growers are urged to complete deliveries to the Collins warehouse as soon as possible.

Farmers and Merchants Assn. Gets Charter and Will Ask Franchises

(Continued from page one)

10,000 phone system at an estimated cost of \$100 per phone. This makes a \$1,000,000 project. A plan that will make it possible to adjust the initial cost and take care of transient subscribers is one of the hard problems the committee will have to solve.

Every member of the board is enthusiastic over the prospect of organizing an association and system that will be a model, after which many communities it is believed will want to pattern. They feel confident that they will be given hearty support by a large majority of the subscribers of the county, even should the telephone company return to the free toll service between certain exchanges eliminated before the government order existed the free zones.

"If we start, the Pacific never will have as many subscribers as it has now, and I believe we will have little trouble in securing the vast majority of present subscribers of the Pacific as members of our association," declared Belding last night.

That the Pacific is not "roving" fair with all subscribers was charged by certain members of the board. Chas. Eygabroad reported that G. A. Mills of Anaheim had received a bill for \$3.50 for a month's service. Mills tendered \$2 and told the party he was dealing with that he could either accept that amount or take out the phone. The money was accepted.

Tolls Not Paid.

Wm. Belding intimated that he knew of parties who were not paying the toll between exchanges.

H. B. Woodrough, as chairman of the committee, consisting of himself, Lake and Bollinger, appointed to make arrangements for reports for the association, submitted a report as follows:

"Your committee begs to report that we find it perfectly practical to secure the reports called for in the resolution adopted by the directors Aug. 5, 1919.

"We have the assurance of the United States Weather bureau that they will regularly furnish our office with any information they may have; the Orange County Title Company will furnish our office with a daily record of real estate transfers, mortgages, loans, etc.; the Bureau of Markets (U. S. Dept. of Agriculture) will send our office daily complete reports covering Los Angeles food stuff prices and movements and resumes of the country markets; your committee has the assurance of a representative of the Federal Reserve bank that our office will be furnished with financial reports of interest and benefit to association members.

"Your committee further reports that they have every reason to believe that it will be perfectly practicable and possible to assemble in our office, for dissemination among our members, any authentic information that may be asked for."

Communication Report.

H. C. Head, H. H. Hale and L. P. Drake composed the committee appointed to recommend the best method of communicating the reports to members, submitted the following, through Chairman Head:

"Gentlemen: Your committee appointed for the purpose of investigating the best and most advantageous way of providing for communication among the members of the Association, begs leave to report as follows:

"We have carefully considered the purposes for which the Association is organized, the territory proposed to be covered by the Association, and the various means that are available for communication of advice, information and consultation to, by and among the members.

"We find that the members of this Association will be composed of farmers, fruit growers, merchants, bankers and other business men, residents of and transacting business in Orange county, California; that it is the purpose and intention of said Association to facilitate communication of information among the members of the Association, the several Farm Bureaus throughout the County, the various co-operative fruit, walnut and produce

packing houses and associations, and of transmitting to and among said members crop reports, market reports, weather reports, financial reports and information, and many other advices and reports of value and benefit to the members of the Association.

Telephone Recommended.

"After due consideration of the above mentioned matters and a study of the various means that might be adopted for carrying out the aforesaid purposes and objects of the Association, we are convinced that the only practical and satisfactory way of properly carrying out the aforesaid purposes and making the said Association a source of benefit and convenience to its members, for which it is intended, will be to install in said County of Orange a mutual telephone system by the said Orange County Farmers' and Merchants' Association, for the mutual use and benefit of the said Association and its members, and we recommend that the said Association do proceed to install a mutual telephone system for the use and benefit of its members, the said system to be installed and operated at cost and for the purpose of carrying out the purposes and objects of said Association.

FIRST FUMIGATIONS PROVE BIG SUCCESS

On an actual count made this week in a unit of the great citrus orchard of the Chase Plantations at Corona, 99.6 per cent of the scale was killed in a fumigation with the newly-perfected hydrocyanic acid, called hydro-cy, and the hydro-cy applicator. The complete check on the results of the fumigation was made personally by O. C. Barnes, manager of this 750-acre ranch.

This orchard is being fumigated a month earlier this year than in past years, owing to the fact that the scale is much farther developed this year. This is a condition found in many other citrus localities. Mr. Barnes is using the hydrocyanic acid manufactured by the Pacific R and H Chemical Corporation of Los Angeles, of which F. W. Braun is vice-president and general manager. This product is also being furnished growers this year through the Fruit Growers' Supply Company, subsidiary company to the California Fruit Growers' Exchange.

The big Corona grove is being fumigated with this new product (hydro-cy), that has proved so successful under repeated experiments. Mr. Barnes said this week that he attributes the remarkable success of the fumigation with "Hydro-Cy" to the fact that the product is uniform in strength, and is completely diffused beneath the tent with the use of the hydro-cy applicator, a machine invented with which to apply this new material. Like many other citrus communities, Corona has had a tough fumigating problem during the last two years. It is natural that there is big interest in these first fumigations of the year. Much poor fumigation of last year has been attributed to the lack of uniformity in quality of hydrocyanic acid that was furnished. Growers are anticipating a real clean-up this year.

Much interest is now manifested in these first fumigations of the year because results obtained from last year's fumigations with the liquid material showed wide variations in scale killing efficiency. The record obtained this year justifies the belief that a high percentage of scale killing efficiency may be relied upon when hydro-cy is used by hydro-cy methods.—Covina Argus.

GOVERNMENT TRIMS ARMY FOOD PRICES

(Continued from page one)

of transportation, either by rail to cities or by parcel post to consumers. Extension of the food control act to cover clothing and other necessities, and addition of heavy penalties for profiteering, was asked by Attorney General Palmer today in a letter to Chairman Grooma of the Senate Agricultural committee.

Palmer explained that these amendments "will be extremely helpful in the department's efforts to reduce the cost of living."

Doctor Tells How to Detect Harmful Effects of Tobacco

Try These SIMPLE TESTS

New York: Doctor Connor, formerly of Johns Hopkins hospital, says: "Many men who smoke, chew or sniff incessantly and who are seemingly healthy are suffering from progressive organic ailments. Thousands of them would never have been afflicted had it not been for the use of tobacco, and thousands would soon get well if they would only stop the use of tobacco. The chief habit forming principle of tobacco is nicotine, a deadly poison which, when absorbed by the system slowly affects the nerves, membranes, tissues and vital organs of the body. The harmful effect of tobacco varies and depends on circumstances. One will be afflicted with general debility, others with catarrh of the throat, indigestion, constipation, extreme nervousness, sleeplessness, loss of memory, lack of will power, mental confusion, etc. Others may suffer from heart disease, bronchial trouble, hardening of the arteries, tuberculosis, blindness or even cancer or the common affliction known as tobacco heart. If you use tobacco in any form, you can easily detect the harmful effects by making the following simple tests. Read aloud one full page from a book. If, in the course of reading your voice becomes muffled, hoarse and indistinct, and you must frequently clear your throat, the chances are that your throat is affected by catarrh and it may be the beginning of more serious trouble. Next, in the morning before taking your usual smoke, walk up three flights of stairs, at a regular pace, then stop. If you find that you are out of breath, your heart beat is forced, trembling or irregular, you may be a victim of functional or organic heart trouble. If you feel that you must smoke, chew or sniff to quiet your nerves, you are a slave to the tobacco habit, and are positively poisoning yourself with the deadly drug, nicotine. In either case you have just two alternatives—keep on with the self-poisoning process irrespective of the dangers and suffer the consequences, or give up the habit and escape the dangers. You can overcome the craving and stop the habit in a very short time by using the following inexpensive formula. Go to any drug store and ask for Nicotol tablets, take one tablet after each meal, and in a comparatively short time you will have no desire for tobacco, the craving will have left you. With the nicotine poison out of your system your general health will quickly improve.

Note—When asked about Nicotol tablets, one of our leading druggists said: "It is truly a wonderful remedy for the tobacco habit, away ahead of anything we have ever sold before. We are authorized by the manufacturers to refund the money to every dissatisfied customer, and we would not permit the use of our name unless the remedy possessed unusual merit." Nicotol tablets are sold in this city under an iron-clad money-back guarantee by all up-to-date druggists, including the Rowley Drug Co.

Principle for Railroads

"How can the railways be most efficiently operated so that the transportation charge which the public must pay shall be as consistent with just treatment of investors and just treatment of employees? Railway investors are entitled to have as fair return on their capital as compared with investors in other industries, and employees are entitled to fair compensation as compared with employees in other industries. This is the general principle upon which the railroad problem should be solved.

"I don't believe the railroad men want any more than what they believe to be fair, but the leaders are in the position of advocates and attorneys. They see one side of the case only and are misled by the vast amount of misinformation, distorted statements and half truths that are current.

The owners of securities of the principal railroads have nothing to fear from any fair inquiry into the value of the properties. The railroad investments of this country as a class are certainly as clean as any other form of investments.

"Vastly more money has been made by the people who have followed the construction of new railroads and land and industrial opportunities than has been made by investors in railroads. The rewards, on the average, have not been excessive, measured by the returns upon other investments.

"There have been unscrupulous promoters in railroads as in other lines of business, but the stockholders have suffered most from them. The great body of railroad financing has been honest and sound on the whole, and the public has received full value and the best service in the world.

Mistaken Idea

"The idea that the government can borrow billions of dollars at four per cent under present conditions is a mistaken one. With only a small public debt, as formerly, government bonds, free of all taxation, were in demand by a small class of investors at low rates. That proves nothing as to the ability to float a great loan.

"It is not a time for hasty action or for any experiments which will tend to prevent the speedy revival of confidence and industry. The world is short of the common necessities of life and that is the first situation to be dealt with."

REDS CAPTURE RIGA

BERLIN, Aug. 13.—The Russian newspaper Pravda, published here, stated today that the bolsheviks had captured Riga. The Lettish premier fled to Mitau, the newspaper said.

A gopher extermination campaign is being waged at Fort Romie, Monterey county.

Business District Drive Postponed Until Monday of Next Week

J. C. Metzgar and his "war dogs" will mop up the business district next Monday in the campaign for the sale of memberships in the Orange County War Service Recognition Association. Work in the business district has been postponed to that date because of the fact that all of the membership buttons have not arrived yet and they may not be here before the end of the month.

County Chairman Bisby has enough buttons on hand to take care of all the other districts and soliciting is being pushed everywhere except in the business section of Santa Ana. Solicitors in other districts may feel at liberty to canvass in the city section, or in other districts where they think they can get a membership.

Metzgar and his crew of "moppers" will clean up the business district in short time after they get started, and it is promised that whatever amount is needed to complete the city push after this week's drive will be overcome by the business district workers.

Notwithstanding the fact that in some sections the solicitors are meeting with lukewarm receptions, and in some instances rebuffs, the campaign is going along nicely, and there is no fear but that the full amount of the county quota will be taken up. The county has never failed to "bring home the bacon" in war activities, and Bisby says that it is not going to fall down this time.

The names of all the members of the organization are going to be enclosed in the corner stone of the memorial arch to be erected by the Board of Supervisors at the entrance to Orange County Park. The Register will publish the names of the patriotic people of Santa Ana who subscribe, using installments from day to day until all the names have appeared in print.

That the service men of the county are keenly interested in the big celebration is evidenced by the fact that many of them are calling at the office of Bisby in the Spurgeon building and leaving their names and addresses, while others are mailing the information.

Some of the solicitors have been dumfounded at the cold reception they have received at times. The hearts of such people have grown cold—they have lost their appreciation of the heroic acts of the boys and girls who went from the county to offer protection to the homes and families of the people who today refuse to show their appreciation even to the extent of contributing \$1 to a fund to be used in evidencing the appreciation of the Orange county people of the valor and sacrifices made by the men when they quit their civil occupations and took up the art of learning to kill an enemy that was threatening the very foundation of this nation.

Bisby had reports in this morning from only three districts in the county. Anaheim reported 50 per cent over. West Wallace expected to have Newport's quota by this evening and "Curly" Jordan of Balboa gave assurance that Balboa would go over the top before another day dawned.

Mrs. N. M. Holderman yesterday sold membership buttons from a stand in front of the California National Bank. She sold 106 buttons to people who volunteered, happy at the opportunity to give their memberships to her.

Following is a list of some of the members of the organization: Adams, Mrs. L. V.; Allen, J. D.; Andrews, F. L.; Ash, G. W. L. H.; Bradford, G. C.; Brooks, J. S.; Breeding, Chas.; Bickley, D. City and County Briefs

Declaring that a feed preceding a meeting is the "system" for getting out the membership, the Anaheim Board of Trade has increased the annual dues from \$5 to \$12, the additional dues to include a dinner at each of the monthly meetings.

The Alfalfa Growers of California, Incorporated, co-operative association, 525 Central building, Los Angeles, furnish the following quotations on alfalfa hay, which are selling prices to purchasers of carload lots, f.o.b. Los Angeles: No. 1 Dairy, \$27 to \$28; Standard Dairy, \$24 to \$26; Standard Alfalfa, \$21 to \$23; Stock Alfalfa, \$17 to \$19.

Terra Bella, Tulare county, reported apricots running nearly 65 per cent fancy fruit.

HOLDERMAN ASSIGNED FORT TRAVIS, TEXAS

Home and Camp Kearny are not for Captain Neb Holderman and under changed plans of the War Department it is not likely he will get home for some time, even on a visit.

The division he is attached to has been assigned to Fort Travis, San Antonio, Tex., and will not come to Camp Kearny. Captain Holderman today advised his wife of the change in plans and will write to her later from Fort Travis.

The announcement a few days ago that the division had been assigned of Camp Kearny permanently brought great rejoicing among the captain's relatives and friends here, and it was expected that he would be present for the county demonstration at the park.

News for the Housewife at Preserving Time

Here is a recipe for preserving syrup that will give you finer jams, jellies and preserves—and save you about one-half your trouble.

Instead of all sugar use only one-half sugar and one-half Karo (Red Label).

You will find this means clear, firm jelly; rich preserves with heavy syrup; and delicious jams, mellow and "fruity". Karo is a fine, clear syrup, with a natural affinity for the juices of the fruit.

It blends the sugar with the fruit juice—brings out all the "fruity" flavor.

Furthermore, it prevents even the richest jam or jelly from "candyng".

It does away with all the uncertainty of preserving, and just about cuts the work in half.

For cooking, Baking and Candy Making Karo (Red Label) is used in millions of homes. In all cooking and baking recipes use Karo instead of sugar. It is sweet, of delicate flavor, and brings out the natural flavor of the food.

FREE A copy of the Corn Products Cook Book is all ready to send to you as soon as we receive your name and address. It contains any number of helps to the woman who expects to make preserves, jams or jellies.

CORN PRODUCTS REFINING COMPANY P. O. Box 161, New York City

COMMUNITY PROPERTY LAW

In view of the discussion now going on with reference to the so-called Community Property Law, which appears to be in a muddle, the following brief statement, which introduces an extended article in California Taxpayers' Journal, is of interest. It sets forth the points clearly, in nutshell style:

"The club women of California desired, at the 1919 legislature, to have laws enacted giving the wife the ownership of one-half of all community property, and giving her the right to dispose of the same by will; also giving the husband or wife of an insane person power to sell community property when necessary. They succeeded in having four bills passed to accomplish these results. "Senate Bill 680 gave the desired relief to the spouse of an insane person and was approved by the governor, and is now the law.

Assembly Bill 698 gave the wife an equal ownership with her husband in the community property, and Assembly Bill 697 provided the procedure by which it might be determined by the court whether or not the wife left a will. Both of these bills were vetoed by the governor. Thus the attempt to give the wife ownership of one-half of the community property failed, and her rights are no greater than they were before.

"Senate Bill 471 provided the method by which the wife might dispose of her half of the community property by will. The governor signed this bill, but it was delayed by a referendum petition, and must be voted upon by the people at the general election in 1920. This bill does not appear to be effective because the wife cannot dispose of property which she does not possess, but a discussion of the construction to be placed upon a statute is necessarily one to be maintained by members of the bar."

THE REST PERIOD

The National Industrial Conference Board reports that "rest periods" are really more restful than most people suppose. They say, "reducing the number of hours worked per day does not appear so efficacious in avoiding the diminution of working capacity as introducing a ten or fifteen-minute pause during the middle of the forenoon."

Of course this is true within limits. Brief rest periods could not overcome the ill effects of intense effort put forth over an unduly prolonged period. Nor could a fifteen-minute rest period in the forenoon completely compensate for working through an abnormally long day.

On the whole, however, it is true that a brief rest taken in time gives just the necessary strength to relieve the strain of the working day. This is particularly true of monotonous processes. Whether the rest period is used simply for a few minutes of quiet thought, or whether it is spent in exercise, in chatting with fellow-workers, in eating a light lunch of a sandwich, a glass of milk or a piece of milk chocolate, it has its effect in relaxing the strain on muscles or eyes. It sends the worker back to his task remarkably refreshed and enables him to finish the day whole-somely tired instead of wholly exhausted.

This is a fact which some wise housekeepers have discovered for themselves and which teachers have used effectively in a two or three-minute relaxation in the school room. Brain workers need it as well as physical laborers. Employees need not fear the introduction of the rest period, for it is not intended as a substitute for a working day of sane length. Employers in general will find it not an upsetter of routine but an actual increaser of output.

HOW OLD IS JOHN?

A native mountaineer of Leslie, Ky., is now the subject of an investigation by the National Geographic Society. He claims to hold the modern record for longevity. John Shell—that is the old gentleman's name—says he is 130 years old. His oldest son is in his ninetieth year. Including great-grandchildren, John Shell is said to have 200 descendants living in his section of the country. He has always been an outdoors man of temperate

habits. Today he is said to have excellent eyesight, steady nerve and general good health.

George Washington was in his first term of presidency when this ancient man was born. When the Civil War broke out John Shell was already too old to fight in it. The changes that have occurred in the progress of civilization during the course of his life are too numerous to mention. History, invention and science have made such progress as it would take volumes to describe.

With all due deference to Mr. Shell's years and veracity, it is quite possible that he has made a mistake about his age. Even if he were a quarter of a century younger than he asserts, he would still have been born in a day when people were much less particular about recording births than they are today. Unless there is an authentic family record to be found somewhere it will be difficult to verify John's age. It is an interesting point, nevertheless, and the Geographic Society is doing well to try to learn the facts.

IF TEACHERS ORGANIZE

Dean James Russell of Teachers College, Columbia University, believes that the day has come when public school teachers should organize, and that in such organization may be much benefit to the teachers themselves and to the public.

The establishment of high professional standards, of an ethical code, is to be desired, he thinks, but he says also:

"An organization of teachers nationwide and properly authoritative must be founded on principles that will be universally recognized as valid, and its conduct must be above reproach. No selfish motive can be allowed to interfere with the realization of its ideals.

"The individual teacher will find inspiration and renewed courage in the consciousness of marching shoulder to shoulder with his fellows in a mighty army recruited to fight the battles of civilization and democracy."

Dean Russell suggests a set of principles which such an organization might fairly adopt. Every member should be a 100 per cent American. There should be no discrimination against any sex, grade or school. There should be equal pay for equal work, and a living wage always. The teacher should teach his pupils the fundamental facts of American life, and help them to make wise choice in their affiliations, but he must not proselyte, or conduct propaganda for any cause on which citizens are divided, and he must have a decent respect for the opinions of others.

To an organization founded on such principles no one could have any objection. It would work to the advantage of teachers, pupils and public.

Quite possibly, as the opponents of the League of Nations maintain, the league will not end war at once and forever. But what alternative is there that offers any hope?

NEEDS A SPANKING

Sacramento Bee

A child brought up on the prevailing type of moving pictures will feel sure that the only way to get rich is to marry a rich man or woman, find a bonanza gold mine, or own worthless oil stock and run across several gushers on the land at the psychological moment.

The child brought up in New York imagines that everybody west of the Mississippi valley wears a six-shooter with a hair-trigger and a row of notches on the handle. It also fancies that most westerners spend their lives in riotous dance and gambling halls with frail wooden fronts through which any cowboy can ride on his broncho.

The apt pupil of the film curriculum will feel sure that every girl who works for a rich man should wear electrically-wired shirtwaists charged to a shocking degree to keep the boss at his distance.

In scarcely any moving picture does the ambitious boy get ahead by patient industry, hard use of his head (not use of the hard part of his head), thrift and his own solid merit.

In practically all of the pictures wealth comes in a sudden jolt of good luck. Presumably the other methods are too slow for picture purposes.

Not one film story in a hundred is true to life, and not one in a thousand is original or freshly human in its message. The apparent reason is that the producers have paid too little attention and money to the quality of the story and too fabulous fortunes to the "stars," whose "charm and individuality" soon fail to attract if wasted on putrid plots.

"The excuse of the movies magnates who became millionaires is that 'the industry is in its infancy.' Then, like all other children, it needs a good spanking occasionally.

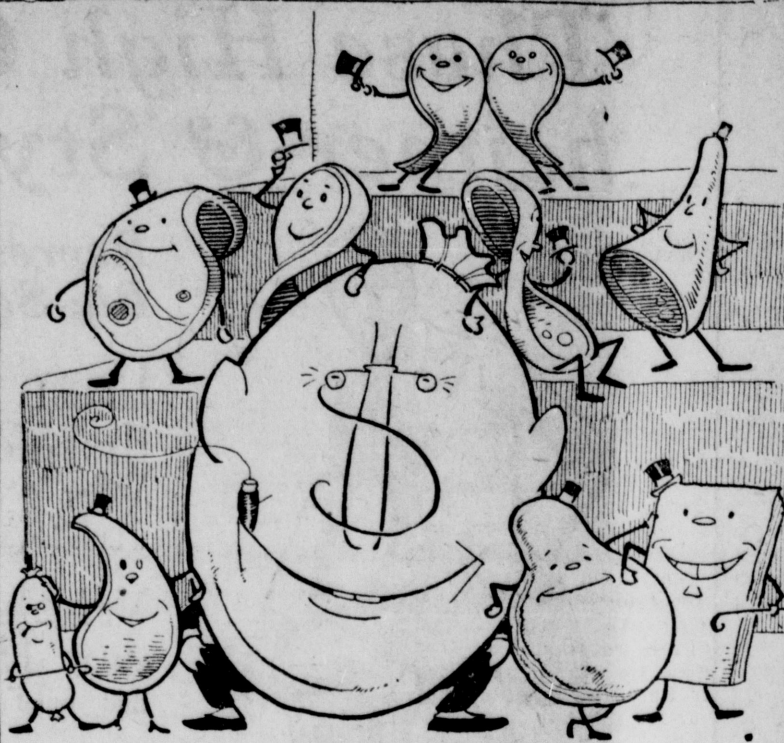

And the public is about ready to spank it.

DEEDS TO LAND FOR AIR GLOBE CIRCLER

HOQUIAM, Wash., Aug. 13.—Deeds to 1000 acres of Gray's Harbor land, lying within what it has been hoped for years will prove an oil belt, are to be placed in a local bank as a reward for the aviator who first encircles the globe. George J. Hibbard, a Seattle attorney, makes the offer, and has set the time limit for winning the land at August 1, 1920.

Don't forget! Mush bread at the Dragon, 12c per loaf.

Chamber of Commerce Benefits

In such associations as the Santa Ana Chamber of Commerce and the Orange County Associated Chambers of Commerce, there is a certain amount of sociability, which we may obtain in no other way. Unfortunately, in this business age, we are too apt to overlook the value of a "friendly chat," and what it may lead to. The friendships formed in such organizations will not only be of money value, but of value to us as citizens of Orange county and as individuals of a great neighborhood.

In a business way, no better results can be accomplished than by such organizations. Boosting the town and boosting the county inspires everyone; and is of special value to the boys in showing them what town and county can be and should be. And the hope of both county and town is in the boys.

Another benefit from it is that we can learn how much good is possessed by the other members of our community. The hermit never knows of the excellent qualities of others, and as a result thinks that he is the only citizen of importance in the community. Let us avoid any imitation of the hermit.

Any alumnus of the State University or Stanford University will tell you that he learned almost as much by associations with the youth of different parts of our state as he learned from his teachers in the class rooms. So business men can learn much by simply mingling with other business men; listening to their experiences, hearing their troubles and successes. No man knows how much his neighbor knows till he gives that neighbor an opportunity to tell him.

Therefore, let the farmer and financier, the merchant and mechanic, the preacher and physician, the manufacturer and miner, the lawyer and laborer get together, not simply once a year, but several times a year; let them "touch elbows;" let them discuss matters pertaining to the welfare of our city and county; let them learn of the needs of people of all vocations, and our minds will broaden and our efforts unite for the possession of those things which will make both town and county ideal.

Legitimate Stage is Not Fading; Can't Be Killed

Santa Ana, Cal., Aug. 13, 1919.
 Editor Register: Having carefully perused the editorial, "A Forlorn Hope," which appeared in yesterday's Register, I am prompted to precipitate myself mildly into the discussion as to the relative merits of the motion pictures and the legitimate stage, not because I admit that William McCulloch's views, expressed in a news story yesterday, and resulting in the editorial in question, centered about that subject, but because, whenever I see an editorial which makes use of such phrases as "the fading legitimate stage," and "if the legitimate ever staves a come-back," little ripples of heat begin to course up and down my spine, spilling into a pool of considerable warmth somewhere in the region covered by my collar.

The editorial says that "those who were wedded to the legitimate stage from the first have resented the intrusion of the movies most bitterly." If there has been any degree of such resentment it has come from the managers themselves, as it appears to me, and the managers deserve no sympathy for their lack of acumen and business judgment which has resulted in the deplorable condition of affairs as far as the road is concerned. The road is now practically without traveling companies, and I agree with McCulloch that this fact is due, not to the movies, but to the grasping methods of those at the head of the theatrical "game" in the United States; the managers have killed the goose that laid the golden eggs. As for the public, which has now in overwhelming numbers turned away from the legitimate, at least in the "provinces," a goodly share of it never resented "the intrusion of the movies," but regretted their coming, rather.

It Is Not Fading

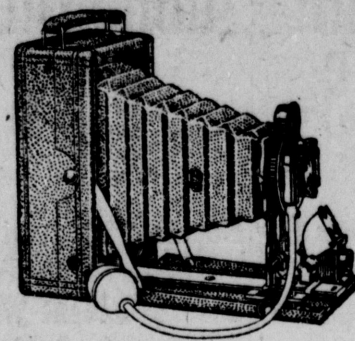

As to "the fading legitimate stage," I deny that it is fading. That which does not exist cannot fade. On the road, as I have stated, the number of theatrical companies is practically negligible, while in the large cities of the country it appears, from figures which I have seen, that, at least as far as receipts are concerned, productions of every kind in legitimate theaters have recently closed down during any previous season. In New York, last winter, records were broken in certain instances in the matter of amounts taken in at the box office. In Los Angeles, in San Francisco, in New York, in Paris—in fact, in all the larger cities, there is never any great fluctuation in attendance, and it is upon the larger cities that the legitimate must always depend for that support which makes possible the showing of productions on the road.

Concerning a "come-back" of the legitimate, in my mind there is no question of that; what has never gone away cannot return, and most assuredly, as I see it, the legitimate has always been with us, centered about unshakable foundations in the big cities, which might be compared to great theatrical mothers, spreading their protecting wings over their road company chicks whenever the weather (conditions on the road) becomes too cold. During the past few years these "chicks"—potentially, at least—have been hovering in the warmth of maternal feathers, ready to wander afield again when the "weather" becomes agreeable once more, which it undoubtedly will, and very shortly.

Before going this far in this letter, perhaps I should have stated that I lay no claim to any knowledge of the drama, or to large across-the-footlights acquaintance with the world's greatest actors, or to any ability to know good acting when I see it. But I do know what pleases me, and I do have a few ideas on the subject of the theater. I happen to be one of those "wedded to the legitimate stage," not because what I see and hear on the legitimate stage always pleases me, but because I do see and hear there at times things which cannot ever be duplicated in a motion picture house. I have reason to suspect that there are a considerable number of persons left in towns on the road (as well as in the larger cities) whose penchants for entertainment are somewhat akin to mine—persons who cling doggedly to the belief that the legitimate will be able to inject some life-giving serum into its temporarily anaemic self in the near future and emerge from its hypochondriac sick-room; persons who cannot be clubbed out of their fondness for seeing flesh and blood folks on the stage, simulating "the thousand natural shocks that flesh is heir to."

Not in Same Class

As I said, I do not profess to know anything about the drama, but somehow, I fail to see how anything that the motion picture can ever develop will compete in civilized entertainment with companies of actors, speaking in the way it should be spoken, the English language, put together by artists. Not that I maintain that there has ever been any considerable period in the history of the American stage when the theater-going public was able to hear well-constructed and well-spoken English, or when it was able to see any great number of real actors. But the fact remains that occasionally one is able to see a work of art on the legitimate stage, and when that occurs he or she who is the "spouse" of the legitimate stage feels a certain glow, a warmth, a satisfaction that can never be equalled by any-

Removal Sale of Cameras and Men's Wrist Watches

A Liberal Discount of 25%

Preceding our removal to our new location we offer, so as to effect immediate disposal, a discount of 25 per cent on Premo Cameras and men's wrist watches. This is a distinct saving on standard merchandise of excellent quality. Your inspection is invited.

Premo Cameras

The Premoette Senior, a Kodak No. 2-A and No. 4-A, as well as other last year's models, are among the Cameras we do not wish to carry with us to our new location and therefore will close them out at one-fourth off.

Wrist Watches

FOR MEN

Men's Wrist Watches are very popular; they are the preferred time pieces with many men. If you have been contemplating the purchase of a wrist watch either for yourself or a gift to some one else we suggest you take advantage of our removal discount of 25%.

 Sodium Citrate—an effective regulator of the bowels—used frequently with other ingredients by learned doctors in treating colic and diarrhoea.
 Sodium Bicarbonate—highly valuable in treating severe gastric indigestion in children.

Oil of Anise, Fennel, Caraway, Coriander, Glycerine, Sugar Syrup, all of which help to make this formula the very best that medical skill can devise. If it were possible to improve this formula it would be done regardless of the fact that a bottle of Mrs. Winslow's Syrup now costs twice as much to make as any other similar preparation. Yet it costs you no more than ordinary baby laxatives.

Returned From Long Trip

Mr. and Mrs. J. M. Akins are at home again after their extensive trip in the north. They went as far as Seaside, Ore., where they visited the family of Mrs. Akins' cousin, Will Crawford, who is coming here soon to locate. Mr. Crawford is an Oregon capitalist and expects to purchase a fine home here.

Mrs. Akins left here May 13 and Mr. Akins motored up, leaving here June 6. They made the trip home in their machine, accompanied by Mrs. Akins' sister, Mrs. Cora Godshall, of Portland, Ore. Mrs. Godshall is well known here, having made numerous former visits.

Celebrates Birthday

A most happy gathering was that which took place in Birch Park yesterday afternoon when Mrs. D. W. Hicks entertained the Veteran Rebekahs in honor of her birthday.

The guests who gathered around the luncheon board, festive with snowy linen and dainty decorations, arranged by the genial, white-haired hostess, made a delightful picture. Mrs. Hicks greatly appreciated the hearty greetings of her friends, who had come bearing gifts that spoke of love and friendship. This with the delightful surroundings made a lasting impression on everyone present.

Mrs. O. E. Bullock, Mrs. J. J. Pile and Mrs. B. Uttley assisted the hostess in arrangements. Mrs. I. D. Mills on behalf of those present, presented Mrs. Hicks with a handsome tortoiseshell comb.

Nothing ever tasted better than the huge birthday cake that graced the center of the table, made by the hostess, who has more than a local reputation in the culinary art.

The guests departed late in the afternoon wishing her many happy returns of the day.

Luncheon At Beach.

Mrs. Susie Rutherford was hostess at a luncheon at her summer cottage in Balboa yesterday for the members of the card club of which she is a member.

The afternoon was interestingly passed with the usual bridge games. Mrs. J. D. Thomas receiving first prize and Mrs. L. A. Collier, second.

Covers were laid at the luncheon for the hostess Mrs. Rutherford, Mrs. C. V. Davis, J. D. Thomas, L. A. Collier, J. I. Clark, M. A. Yarnell, Addie Collins, Parke Roper and Chas. Kendall.

Cruise Around Island.

Mrs. Isadore B. Dockweiler of Los Angeles, who has been staying at Balboa this summer with her family, is to chaperone a group of young people for a week-end yachting party on the Pow-Wow. The group, leaving Balboa early Saturday for Catalina, enjoying the dinner dance at St. Catherine's in the evening and cruising around the island on Sunday, will include Misses Mary and Rosalie Dockweiler, their brothers John and George and eight guests.

Dinner For Brides

Mr. and Mrs. J. B. Stewart entertained at a six o'clock dinner last evening in honor of two brides, Mrs. Carl Kadau and Mrs. Walter Brubaker, and the return of their husbands from service. The occasion was really a house-warming, too, as Mr. and Mrs. Stewart have recently moved into an attractive new home on South Broadway.

Flags made an appropriate decoration throughout the home and on the table, where covers were laid for Mr. and Mrs. Carl Kadau, Mrs. Kadau's parents, Mr. and Mrs. A. B. Lane and son, Claire, Mr. and Mrs. Walter Brubaker and Mrs. Brubaker's parents, Mr. and Mrs. P. I. Bird and son, Harold, and the hostesses, Mr. and Mrs. J. B. Stewart.

After dinner informal amusements and games passed a very pleasant evening.

Month At Balboa

Dr. Charles Whitted and family are spending the month of August at Balboa. Mrs. Louise Walker will be a guest of Mrs. Margaret Whitted for a few days at the beach.

Orphans' Class

The Orphans' Sewing class of the Rebekahs met yesterday with the Noble Grand, Mrs. Ada Walters. There was a good attendance and the few hours of pleasant work made a large impression on the sewing yet to be done before the room will be completely furnished. Quilt piecing kept the members busy yesterday.

Many hands make light work and when it is carried on under such pleasant surroundings and for such a righteous cause, it is not work at all, but a pleasure and the afternoons are very enjoyable. Mrs. Walters served refreshments to her guests.

A Jolly Housewarming

The home of P. L. Briney and family at 626 North Ross street was the scene of an enjoyable event Monday evening when the staff of the Abstract & Title Guaranty Company assembled

to give the Brineys the long-promised housewarming in their new home.

The occasion was a most delightful affair, the evening being spent in games and various pastimes, and last but not least was the serving of refreshments, which consisted of a bountiful supply of watermelon, ice cream and cake.

Those present to participate in the gathering were Mr. and Mrs. D. N. Kelly, Mr. and Mrs. H. B. Kelly, Mr. and Mrs. G. W. Lambert, Mr. and Mrs. P. L. Briney, Mrs. Scott, Mr. R. A. Kloess, the Misses Esther Patterson, Lorraine French, Nellie Wilson, Louise Crane, Helen Kemmer, Dorothy Whipple, Olive, Bertha and Mabel Briney.

Delta Alpha Class Meeting

The Misses Nelson and O'Brien were hostesses last evening to the Delta Alpha class of the First M. E. church at the home of the former.

The following officers were elected for the coming six months: President, Mrs. Pearl Morse; secretary, Miss Minnie Wild; treasurer, Miss Olive Briney; assistant secretary and reporter, Miss Lettie Stowe; librarian, Miss Beulah Stone.

After a pleasant social time, delicious refreshments were served.

To Crater Lake

Dr. J. P. Boyd, C. E. Utt of Tustin, and two daughters, Misses Louise and Elizabeth, left this afternoon for Crater Lake, Oregon, where they will remain for ten days or two weeks.

Miss Rosa Boyd and Mrs. T. E. Stephenson are leaving tomorrow to spend the week-end at Laguna Beach, while T. E. Stephenson and son, Teddy, are hunting at Joplin's ranch in Bell canyon.

PERSONALS

Ed. Best and family are enjoying a camping trip near Big Bear this week.

Mrs. Charles F. Heil and her two little daughters, Helen and Elizabeth, left yesterday morning for a two weeks' visit with relatives in San Francisco and Oakland.

Miss Eugenia Claytor of Los Angeles is entertaining a house party of girl friends at Balboa this week, with

her sister, Mrs. Roy Browning, as chaperone.

Mrs. Ed Marty of Arlington, who has been the guest of the O. V. Barton family, has returned home.

Miss Ruth Whitney has as her guest, Miss Florence Wiese of Redlands. The two were roommates when attending the State Normal at San Diego. Miss Whitney has been attending summer school at Long Beach, and is to teach again this fall at Placentia.

Misses Bessie Lewis and Leslie Smith are at Forest Home for a few days.

Will Armstrong and Neal McClintock left yesterday for Sequoia park, on a two-weeks' hunting and fishing trip. Mr. Armstrong's sisters, Misses Bertha and Ruth Armstrong and Mrs. Fannie Tedford returned yesterday from two weeks spent at Forest Home, Miss Ruth being the competent chauffeur for the trip.

Mr. and Mrs. F. W. Wisseman and two daughters motored to Los Angeles today to spend the time with relatives.

Earl Fraser made a trip to Los Angeles today.

E. B. Collier was a visitor in Los Angeles today. His wife and daughter, Miss Leatha, are spending their vacation in San Francisco and Sacramento. Mrs. Collier's health is much improved.

Miss Sedalia Cubison of Ontario, who has been visiting here, left for home this morning.

C. C. Langley and family have taken a cottage at East Newport for ten days. They went down today.

Gregory Crapster, who is on the Birmingham of the Pacific fleet, is a guest at the home of his cousin, Mrs. M. H. Shields. He enlisted in the navy service in Illinois.

W. N. Prince and family are sojourning at Santa Catalina Island.

DAMAGE VESSEL SAFE

LONDON, Aug. 13.—Lloyds reported today that the American steamer Englewood, which was reported to be in distress at the mouth of the Thames, had been struck by a mine. Tugs were standing by the vessel and she was out of danger, making her way towards the Thames.

THE TIDES

DEATHS

JOHNSON—At his late residence, 1524 Reid street, Los Angeles, August 12, 1919, Francis Joseph Johnson, aged 56 years, beloved husband of Susie M. Johnson.

Funeral services will be held under the auspices of Los Angeles Lodge, B. P. O. Elks No. 99, at the chapel of Booth & Boylson Co., 1147 South Flower street, Los Angeles, Friday, August 15, 1919, at 2 p. m. Mr. Johnson was a man of sterling qualities and held in high regard by all who knew him. He was a son-in-law of R. H. English of this city. He was superintendent of the Moline Works in Los Angeles.

HEISER—In Santa Ana, Cal., August 13, 1919, Mrs. Margaret Heiser, aged 34 years.

Funeral services, Saturday, August 16, at 10 a. m., from Zion's Evangelical church at Main and Tenth, Smith and Tenth in charge. Deceased was the wife of E. J. Heiser of Fairhaven avenue.

Advertisement.

THE IDEAL WOMAN

The great Napoleon once said: "My ideal woman is not the beautiful-featured society belle, whose physician tries in vain to keep her in repair, but the matron who reaches middle age in complete preservation—that woman is rendered beautiful by perfect health." To attain such health in middle life a woman must guard against those ills which drag her down and produce nervousness, headache, backaches, sleeplessness and "the blues." The standard remedy for such conditions is Lydia E. Pinkham's Vegetable Compound, which for forty-five years has been restoring women to health and strength.—Advertisement.

The most logical argument we have heard against government operation of the wires is Burselen.

News from Orange County Towns

CITY TRUSTEES REFUSE TO PAY DEMAND

City Treasurer Clements of Orange Must Pay His Own Court Costs

ORANGE, Aug. 13.—The city trustees have rejected a demand for \$170 made by City Treasurer W. E. Clements, as a result of the recent suit between the city and the treasurer over a warrant drawn for lots purchased for a city hall site.

The original warrant authorized by the trustees for \$2150 in payment for lots for a city hall site was rejected by the city treasurer on the ground that the board proceedings were irregular. The city brought suit to compel the treasurer to pay the warrant, but the Appellate court held the proceedings irregular and refused to order the treasurer to pay it.

The \$170 demand was to cover attorney fees incurred in defending the suit brought by the city to force payment of the warrant. The treasurer contends that inasmuch as the expense was incurred by him as an official of the city and that the court held his position in the matter to be a correct one, the expense of defending the suit should be borne by the city.

The trustees, however, with an opinion from Mason & Lock of San Francisco, attorneys for the League of Municipalities, before them, dissenting from this view and the opinion of Acting City Attorney Coburn that the trustees would incur personal liability in paying the warrant, declined to consider the treasurer's claim as valid and refused payment of his demand.

Objects to Paving.
D. R. Gardner of South Glassell street appeared before the board to protest against the paving of Glassell street between La Veta and the south city limits. He contended that if any kind of paving is to be laid, it should be the same width as the county paving. He objected to full width paving and sidewalk and curb.

Ordinance 159. fixing salaries of city employees, was given second reading and adopted.

The trustees accepted an offer to settle litigation over alleged patent infringements in the use of the city's septic tank by the payment of \$45.

The clerk was authorized to take out a commission as notary public.

A resolution vacating a certain alley in the Cradick home tract was passed.

Club Meeting Next Week.

The Orange Men's Club meeting will be held at Huntington Beach on Thursday, August 21, instead of Thursday of this week.

The meeting will be a basket picnic at the pavilion, with coffee furnished. The meeting will be the second of the club's summer outdoor meetings.

Dinner Party.
Eight girls of the Ku Ku Sim Club enjoyed a delightful dinner party on the lawn at the home of Miss Eugenia Lee. During the evening a house-party was planned to be held next week at the beach. The Misses Lois Meyer and Eugenia Lee were the hostesses to this charming party.

Notes and Personals.

Mr. and Mrs. E. E. Hart and two children, have arrived here after a seven weeks' motor trip, from their home at Parsons, Kansas, and are now visiting the W. M. Ryan family at Villa Park. The Ryan and Hart families were neighbors in Kansas. Mr. and Mrs. Hart are looking around with a view to locating in California.

The board of trustees is sitting as a board of equalization. No protests on assessments have been presented as yet.

Mr. and Mrs. S. B. Edwards have returned from a month's trip to Yosemite and other northern points. At present they are making their home with Mr. and Mrs. H. M. Elliott on North Orange street.

W. E. Rice of San Diego is moving his family back here to make their home. Mr. Rice was formerly owner of the Variety store here.

BOYS DISCOVER LOST CAVE BY ACCIDENT

ROMBAUER, Mo., Aug. 13.—Two boys while hunting near here accidentally discovered a cave, which is believed to be the "lost cave" for which the Indians searched for more than fifty years without success.

The boys were after rabbits and the chase had gotten unusually exciting when they felt the earth suddenly give way under them on a hill, and they fell many feet into the newly-made hole. When they related the incident it was remembered that the Indians had searched the hills for the cave, the opening of which was marked by a rock with a turkey foot cut on it pointing to the opening. This rock has been found near the cave.

It is estimated that the cave is 300 years old, and evidently is not a natural one, but made for some purpose yet to be discovered. Two men spent three hours exploring numerous huge rooms, and estimated they had gone a mile and a half without getting to the end of it.

CASTORIA

Wintersburg and Smeltzer

WINTERSBURG AND SMELTZER, Aug. 13.—On Monday a reunion of the Crane family was held at Long Beach. Mr. and Mrs. Geo. Crane; son, S. J. Crane, and Mr. and Mrs. Chas. Graham of this place and their guest, D. D. Crane, of Antelope Valley, attended from here, other members of the party being Mr. and Mrs. Eugene Orr of Parsons, Kans., Mrs. Alice Vail, Sam Crane, wife and family and Mr. Marshall of Santa Ana. A basket lunch was taken on the outing and enjoyed on the sands of the "Pike." Later a number of the party took the launch to San Pedro with the expectation of going aboard the flag ship New Mexico, but to their disappointment found upon arriving there that visitors were not allowed on it and were taken to the Wyoming instead. Upon their return the Cranes were accompanied by Mr. Crane's sister, Mrs. Eugene Orr, and family, who are now guests at the Crane home.

Mrs. R. L. Draper has entertained as guests for the past week her cousin, Mrs. J. C. Bach, and her daughters, Misses Esther and Louise Bach, of Fresno. The Drapers and their guests attended the old soldiers' reunion several evenings last week. On Friday Mrs. Bach and the young ladies left on their return to the North. Mr. and Mrs. A. D. Cleaver and family stopped Saturday at the D. W. C. Dimock home while on their way from Neuve to Seal Beach, where they are spending a few days with an aunt, Mrs. Lewis. The family will later visit relatives here.

On Sunday a family reunion was held at the Lewis home at Seal Beach at which the guests were Mr. and Mrs. Dimock of this place, Mrs. M. J. Taylor and family of Hemet, who are making an extended visit with relatives here; Mrs. Laura Lewis of Los Angeles and Mrs. Mildred Lavaughn of Compton.

Mrs. C. M. Fox was pleasantly surprised Monday by the unexpected arrival of her nephew, Chas. Overholtzer of La Verne. Overholtzer received his discharge from the army last week returning home immediately.

He has been with the Medical Corps the past year and reached France three days after the signing of the armistice. He was in a hospital at Marseilles during his months overseas and gives a glowing account of Southern France and its beauties. Several furloughs gave him a fine opportunity for seeing that section of the country but he did not go as far as the northern portion, where the continual rains defy the name of "Sunny France," so he returns with a pleasant remembrance of that land.

Mr. and Mrs. Geo. B. Crane and son, S. J. Crane, the former's brother, D. D. Crane, of Antelope Valley, who is a guest at their home, attended the Iowa picnic at Long Beach Saturday, witnessing the arrival of the fleet from Bixby Park.

Miss Velda Barnes and brother, Howard Barnes, of Westminster, were entertained at the J. J. Graham home Monday evening.

Claude Graham and wife and Walter Graham and wife of Puente attended the Iowa picnic at Long Beach Saturday and were accompanied by Mr. and Mrs. S. T. Burgess of this place. The Puente party returned here for the night and went Sunday to Aliso, where they enjoyed trout fishing. The best of success crowned their efforts and relatives here were presented with a number of the speckled beauties upon their return.

Miss Jennie Ufford of Huntington Beach is spending this week as the guest of Miss Ethel Graham. The young ladies returned last week from Fresno county, where they spent several weeks working in the fruit preparatory for the opening of college in Los Angeles the 15th of this month.

Upon arriving here they learned the opening date has been changed to September 15, so found themselves with an added month's vacation on their hands.

Mr. and Mrs. Claude Graham and Mr. and Mrs. Walter Graham came down from Puente Thursday to attend the funeral of Mrs. Bonnie Slater. They returned home the same evening.

Mr. and Mrs. J. J. Graham and Mr. and Mrs. S. T. Burgess drove to Long Beach Sunday.

E. E. Haun, who is in charge of J. J. Graham's ranch at Blythe, came in Friday, remaining until Monday, when he left for Pomona to visit his mother prior to returning to the valley.

Misses Mary and Florete Crane are spending the week as guests of relatives at Pomona. They left here last Friday.

The contest score of the competing classes of the local Methodist Sunday school stand as follows for the present week: Class No. 1, Overland, 240 miles; class No. 2, Cadillac, 250 miles; class No. 3, Ford, 255 miles; class No. 4, Stutz, 210 miles; class No. 5, Packard, 370 miles; class No. 6, Hupmobile, 251 miles; class No. 7, Dodge, 315 miles.

Mr. and Mrs. Wilfred Lewis, the former's sister, Mrs. D. W. C. Dimock, and family, with a party of friends from Santa Ana motored to San Pedro Monday and spent the day enjoying a close-range view of the fleet. Some members of the party went over the Arkansas and others visited the mother ship of the submarines, both of which proved most interesting.

Among local people who saw the arrival of the fleet from Huntington Beach Saturday were Mr. and Mrs. R. L. Draper and family, Mr. and Mrs. W. G. Alford and son, Russell, Mr. and Mrs. E. R. Bradbury and family, Mr. and Mrs. Joe Culver and family, Mr. and Mrs. Geo. Gothard and family.

Frank Graham, a brother of J. J. Graham, and Dr. Wolfington of Blythe came in from the valley Thursday and remained as guests at the Graham home over Friday. From here they went to San Pedro to see the fleet and Frank Graham met his son, who is of the crew of the Mississippi. They will not return to the Palo Verde Valley for a month and in that time will take a trip to Bishop.

Mrs. W. G. Alford received word Monday that her sister at Bakersfield is in the hospital at that place and in a very serious condition following an unsuccessful operation. No hope for her recovery is entertained. She had been ill about a month but Mrs. Alford had not learned of it and this bad news came as a severe shock.

The Hemet-San Jacinto Growers' Association is paying \$50 a ton to growers on delivery of apricots and peaches of canning size, \$15 a ton for jam apricots.

WANDERING SICK MAN PICKED UP BY SHERIFF

Odd Figure at Westminster Proves Sufferer From County Hospital

WESTMINSTER, Aug. 13.—About 7:30 yesterday morning an odd looking figure was seen by Miss Leora Blakey passing her home. When first seen it appeared to be a woman, but on coming nearer it was seen to be a man with a blanket around him and one corner thrown over his head.

He seemed to be sick as he frequently sat down to rest. Miss Blakey telephoned to a deputy sheriff about the man that he might be on the lookout for any disappearance. He turned south on reaching the boulevard and lay down to rest near the W. J. Edwards home. Mrs. Edwards telephoned Sheriff Jackson, who was later met by Mr. Edwards at the Huntington Beach corner. The sick man was found near J. L. Hughes' ranch and it was found he had wandered away from the county hospital probably when delirious, and was ten or twelve miles from that place when taken up by Sheriff Jackson.

Word was received by Miss Leora Blakey that her cousin, Mrs. Temple Percy, passed quietly away while asleep at 4:30 p. m., Saturday, August 2, and was buried Sunday morning at 10 o'clock.

She had arrived nine days before at her home in Lantana, Mo., from Arizona, where she had gone with the hope of regaining her health after an attack of influenza. She leaves a husband and four children, the eldest 9 years of age and the youngest ten months. Beside these there remain her father, and two sisters there and two brothers, one in Arizona and one in California. Another brother, Hugh Veale, gave his life in France while helping to rescue the Lost Battalion.

Miss Opal Stoves' grandmother, Mrs. Rachel Collins, of Orange and uncle, Elmer Collins, from Hopkins, Mo., who is spending several months in California, came Sunday for a few days' visit with her. They came here from Huntington Beach where they spent Saturday night with Mr. and Mrs. John Flaws.

George McFadden came down Thursday from Pasadena and spent a couple of days with his cousin, James McFadden. He has been sick most of the time since visiting here two months or more ago, and expects to return immediately to his home in Roswell, N. M., if his physician thinks it desirable. The cousins went to Long Beach Saturday to see the fleet come in.

Mrs. J. H. Walker and Mr. and Mrs. Francis Penhall were Los Angeles visitors Monday.

Mrs. J. L. Kerfoot made a week-end visit with relatives in Long Beach and saw the warships arrive.

Among those who attended the Iowa

HAY FEVER

VICK'S VAPORUB

"YOUR BODYGUARD"—30¢, 60¢, \$2.00

picnic at Bixby Park Saturday were George Abbott, Mr. and Mrs. W. F. Benson and children and O. B. Byram and family. Mr. Abbott met his sister, Mrs. Gould, who lives in Long Beach. The Bensons enjoyed the day with Mr. Benson's brother, B. F. Benson and family, and mother, Mrs. Rosalie Benson, of Los Angeles. The latter returned with them and spent the week-end. The Byrams ate a picnic lunch with Mr. and Mrs. J. W. Sidwick and Mr. and Mrs. W. B. Byram and children, Martha and Robert.

The families of H. Hunt of Anaheim, Pearl Glass of Corona, W. E. McCoy, Mr. and Mrs. S. Dickey, Misses Bertha and Henrietta Dickey enjoyed a family reunion and picnic dinner at Laguna Beach Friday. Miss Henrietta Dickey, who had been spending the week at Corona, came home after the picnic and Mr. Dickey also remained.

Mr. and Mrs. Eugene Worley and children, who are staying at the Helm apartments at Huntington Beach, spent Thursday at the home of Mrs. Addie Blakey. On Saturday Mr. Worley came up for Mrs. Blakey and Miss Leora Blakey, taking them to Huntington Beach for the day, where they enjoyed a picnic lunch and had a fine view of the fleet.

Mr. and Mrs. Herbert Phelps and children of San Dimas spent several days last week at Huntington Beach. They spent Friday with her parents, Mr. and Mrs. T. E. Niles at Garden Grove and after visiting his parents, Mr. and Mrs. E. C. Phelps, on Saturday, returned home.

Mr. and Mrs. J. O. Newby and his brother, Al Newby, of Riverside, called at the W. J. Edwards home Saturday evening as they were returning from viewing the fleet at Long Beach, and remained for supper before continuing their homeward trip.

Mrs. Jessie Fox and two sons, of Los Angeles, visited three days at the W. F. Benson home last week.

Members of the Soldiers' Recognition Day committee for this community are around this week finding owners for the 100 buttons which are Westminster's apperment for the drive. The committee is composed of Messrs. R. E. Larter, O. J. Day and Willis Warner, Mrs. J. F. Patterson, Mrs. E. A. Hare and Mrs. A. Fogler. Pedro Luna, who rents the twenty acres belonging to Dr. Letitia Richards, began taking out beets on Monday. He has about fifteen acres of good sized beets on this place beside eight or ten on the Hansen place, where he lives.

Eastern Preachers Clash on Whether We Should Enjoy Games of Golf on Sundays

BOSTON

NEW YORK

Boston Divine Sends Police To Stop Games at Holyoke Club

Sportsmen of Boston are doubly tired: On the heels of prohibition in the matter of cheering beverages comes the prohibition of Sunday golf. No local option, either. The Holyoke Country club and the Mount Tom Golf club both suffered a descent of the state police on July 20th, and every person found wearing a sportshirt, totting a niblick or bearing other symptomatic evidence of interest in the royal game, was told that "golf playing must cease or action would follow."

The visit of the police was made on complaint of the Rev. Martin D. Kneeland of Winchester, president of the

New York Rector Says, Let All Who Wish Spend Time In Open Air

Lord's Day league, of Massachusetts. In sharp contrast to the Boston edict is the recent announcement of Rev. Dr. Karl Reiland, of St. George's Episcopal church, Stuyvesant Square and Sixteenth street, New York City, that services at his house of worship would begin at ten o'clock instead of eleven for the summer months "in order to give a longer day of recreation to golfers and others who wish to spend as much time as possible in the open air."

At Dr. Reiland's church in New York City it was stated that "we have had a far bigger attendance this summer at ten in the morning than we had throughout last summer at eleven."

DOLLAR BILL FOUND IN NEST OF ROBIN

ELKHART, Ind., Aug. 13.—A gleam of green caught the eye of David Westshaug of Ligonier, as he glanced at a robin's nest in passing the Citizens' Bank there. Investigation disclosed a one dollar bill woven in the nest, practically undamaged. Whether the bill was taken from the bank by a winged purloiner cannot, of course, be determined, but the cashier thinks the discovery explains the difficulty he had in making his cash balance one night last spring.

SHOWERS PREDICTED FOR TOUGH SERIES

NEW YORK, Aug. 13.—Showers and thunderstorms were predicted for New York today as the Reds of Cincinnati and the Giants girded themselves for the toughest series of the year in the National League battle for a pennant.

Four and a half games separated the clubs today, with six games to be amputated from the schedule in three days—meaning, of course, a double-header three days in succession. The Reds are now at the top of the heap.

It was believed that Phil Douglass and Arthur Nehf would be called from the Giant dugout for the first two battles, with Heather and Sallee the choice of Moran.

KNIGHTS COLUMBUS TO HAVE BALL TEAM

ANAHEIM, Aug. 13.—The Knights of Columbus proposes to put a baseball team in the field. At a recent meeting, some of the younger spirits broached the matter, and it was agreed that as soon as the hot weather was over, a team would be organized.

The K. C.'s had a baseball team before the calling of many of its members to army service depleted its ranks to the point where it was impossible to continue in the game. The athletic members are now mostly back.

"BIFF" SCHALLER IS BOUGHT BY PORTLAND

PORTLAND, Ore., Aug. 13.—The Portland baseball club has purchased "Biff" Schaller from Seattle. The outfielder is expected to get into the game with the Beavers against Oakland here this afternoon. The Mc Credies will be without the services of Outfielder Dick Cox for the rest of the season. The gardener broke a bone in his ankle when he slid into a base at Seattle Monday.

Pitcher Joe Dalley has joined the Beavers, having been recently released from the army.

"SCRAP IRON" DALTON HOLDS YOUNG GEORGE

LOS ANGELES, Aug. 13.—"Scrap Iron" Steve Dalton is not yet in the scrap heap he displayed last night in his bout with Young George at Vernon. Young George, who has considerable repute for his morgue-filling punches, was somewhat groggy at the final gong. The bout was a draw.

Frankie Tucker won from Gene Watson. George Moss stopped Joe Golden. Cliff Jordan defeated Johnny Cennars. Joe Miller beat Frankie Garcia and Eddie Hanlon defeated Joe Gomez.

SACRAMENTO BOUTS.

SACRAMENTO, Aug. 13.—Kid Leo and Rex Morris will be the headliners in the Hoffman Club's program Friday night. If Leo wins he will be matched with Salinas Jack Robinson as soon as possible. George Lee and Johnny Potter meet in the semi-final.

RACING AT RENO.

SAN FRANCISCO, Aug. 13.—Four weeks of racing, beginning September 13, will be held at Reno, according to advices received today by California breeders, who will enter horses. W. W. Finn and John Talbert, Denver horsemen, are promoting the meet.

LONDOS WINS BOUT.

SAN FRANCISCO, Aug. 13.—Using the reverse head and body lock on both occasions, Chris Londos won over Ivan Grandavich in straight falls last night. The first fall came in 53:22, the second in 31:03. A match with Strangler Lewis is now desired by Londos, who has dumped all wrestling opponents to date.

WILL VETO BILL AGAIN

WASHINGTON, Aug. 13.—President Wilson will veto the bill providing for repeal of daylight saving, it was learned at the White House today. The bill is now before him.

Orange County Trust and Saving Bank

has received the balance of its bonds and is ready to make delivery to any or all customers who have subscribed.

TEAGUE SPEAKS AT MEETING TONIGHT

Marketing Problems Are To Be Discussed by Well-Informed Man

Tonight at 8 o'clock at the Temple Theater, C. C. Teague of Santa Paula is to deliver an address free to all growers of products of this county. His subject is to be "Marketing of California Products, Past, Present and Future."

There has been a good deal of interest in the announcement of Teague's address. Teague has been manager of one of the biggest citrus groves in the state, and has marketed fruits and nuts under various conditions. His experience has been a wide one. It is understood that he is going to analyze the present marketing situation in the country.

ANAHEIM PIONEER DIES, AGE OF 71

ANAHEIM, Aug. 13.—J. B. Rea, who came to Anaheim from San Diego county thirty years ago, died yesterday afternoon at 5 o'clock, following a long illness. Mr. Rea was well known and prominently connected with enterprises here. He was vice president of the Golden State Bank. He was the father of Miss E. Kate Rea, vice principal of Santa Ana high school.

When the tea-leaves are young and full of sap, they have more flavor and less tannin than at any other time in their growth. That is why Schilling Tea has more cups per pound of real tea-flavor than common tea.

There are four flavors of Schilling Tea—Japan, Ceylon-India, Oolong, English Breakfast. All one quality. In parchment-lined moisture-proof packages. At grocers everywhere.

Courthouse News

COURTHOUSE NOTES

O. V. Dart, of the Dart House Moving Company of this city, in a letter on file today, applies for a permit to move a frame building across the boulevard at Huntington Beach.

The case of Maximo Alvarado, charged with non-support, was indefinitely continued in Justice Cox's court today. Alvarado agreed to pay \$20 per month toward the support of his minor child.

Following his arrest by Sheriff Jackson on instructions received from Los Angeles, Henry De Point, said to be a spiritualist, is in jail in Los Angeles today. De Point was taken to Los Angeles by Deputy Sheriff H. M. Denison, who had a felony warrant. De Point was arrested at his residence, 115 North Main street.

Representing Orange county's half of the receipts from motor vehicle registrations during the first half of the present year, a check for \$45,213.26 was received today by County Auditor W. C. Jerome. The receipts for the same period last year were approximately \$36,000. The money will be apportioned among the five supervisorial districts, for use in road improvement.

Following a conference at the county jail with John Carter, charged with marrying Amelia Musser of San Pedro when he knew that she was already married, Attorney Harry A. McKee is en route back to San Francisco today. Deputy District Attorney William F. Menton, at the request of Attorney McKee, was present at the interview. Carter emphatically denied that prior to the marriage ceremony performed here, he knew that Mrs. Musser was married.

Two horses, reported to Sheriff Jackson as having disappeared from the ranch of J. A. Maaz, two and a half miles north of Orange, have been recovered, according to word received at Jackson's office today.

A young miss, Susie R. Temple, daughter of Mr. and Mrs. Joseph W. Temple, 1502 North Broadway, today reported the loss of a bicycle to the sheriff's office. Miss Temple had two bicycles, she told the sheriff, one of which was practically new. "I wouldn't have cared if it had been my old bicycle which was stolen," she perturbedly explained.

URGES PARK BE MADE NOT TOO ARTIFICIAL

At a meeting of the County Board of Forestry yesterday, A. S. Bradford, chairman of the board, was commissioned to go before the Board of Supervisors and express to the board the opinion of the forestry board that in the improvement of the county park that the plans adopted be in keeping with the natural attractiveness of the park.

The forestry board was moved to take this action by reason of the fact that a number of public bodies and officials have appeared before the board with suggestions as to what ought to be done at the county park. Some have had in mind the making of a city park out of it, others of making it a "pike" with merry-go-rounds and shooting galleries.

In brief, the opinion that Chairman Bradford will take to the supervisors will be that nothing should be done in relation to the County Park that will in the slightest mar its attractiveness as a national park. People go to the County Park and enjoy it because of its oaks, its sycamores, its hills and its out-of-doors. They love city parks, with mowed lawns and tennis courts, for the attractions of the Sanlago canyon in its "wild" state. Artificiality should not be allowed to creep into the plans any more than is absolutely necessary to accommodate the people in their enjoyment of the place as a natural park.

In building for the future, oaks should be grown where many years ago some imported park trees, foreign to this section, were planted, and the foreign trees removed. First of all, what is needed is more room. Useless underbrush should be removed, trees that are coming on should be given every chance to grow, and trees that are in need of care in their old age should receive that attention.

UNDER-WEIGHT SALT SOLD HERE, CHARGE

In a complaint on file in the office of the district attorney today, the firm of Fuller, Leighton and Stratton of Los Angeles, is charged with selling table salt of less weight than that prescribed by law.

The complaint was sworn to by George McPhee, county sealer of weights and measures. It sets forth that salt of less than the legal weight, 1 pound, 8 ounces, was sold to J. H. Campbell of 904 East Washington street, this city.

The defendants named are T. S. Fuller, Mrs. O. Leighton and O. W. Stratton, doing business under the firm name of Fuller, Leighton and Stratton.

FAVOR LEAGUE BUT WANT RESERVATIONS

"In the Northwest the people are for the League of Nations, but they favor it with reservations," said Superior Judge R. Y. Williams, who has just returned from a trip to Washington and Idaho. "Perhaps the people are voicing the sentiment inculcated by the newspapers up there, for I found that nearly all of the strong newspapers of the Northwest are for a league but they want specific reservations by which this country may better assert itself as a nation."

Judge Williams said that fine wheat harvests are being made in the Northwest.

"SMILES" AT ORANGE THURSDAY AND FRIDAY

"Smiles"—four hundred feet of 'em recently taken at Orange and vicinity for publicity purposes under auspices of the new Business Men's Association, will be shown at the Colonial Theatre at Orange on Thursday and Friday evenings of this week. The cameraman was Leo Tiede, Santa Ana photographer, who has equipped himself with a moving picture camera and is planning to enter the "movie" game on a commercial scale. He has already filmed a number of Orange county incidents which were sold to the news weeklies in the East.

The Home Beautiful

We build beautiful and expensive homes; we spend our money lavishly for furniture, rugs and draperies to beautify them. But what can we do that will help more to make the house attractive than to have the walls covered by some of the exclusive half-tone colors in wall paper?

It is a positive pleasure for us to show them to you.

"HIGH GRADE" HOUSE PAINT The Home of Spar-Lac

Standard Paint & Paper Co.

Leslie Osborn, Manager, 222 W. Fourth Street

The Price of Whittall Rugs is the only indication that they are woven other than by hand

What a difference between a home well decorated and tastefully furnished and a house that has no appeal other than that of a stopping place. An inharmonious and poorly furnished house broods discontent. Much of the pleasure of life is lost amid uncongenial surroundings. And in no part of the scheme of home decoration is the harmony and beauty so easily marred as through improper selection of rugs. No matter how expensive the furniture, your home will never be correct unless the rugs in it are equally tasteful. And in no American made rugs will you find so much excellence and artistic conception as in WHITTALL RUGS.

The weavers of WHITTALL RUGS are adept in the reproduction of the rich colors of Persian Antiques. Old blues, rose, greens and oriental shades are faithfully patterned to harmonize with every decorative treatment.

One-Tenth the Price of a Good Oriental

We are exclusive agents in Santa Ana for WHITTALL RUGS, the prices of which are about one-tenth of genuine orientals. Copies of the Kashan, Kazak, Kabistan, Soumak, Gorevan, Surao and other designs are included in our present display.

The completeness of our stock of rugs, the variety of patterns and the comprehensive selection of sizes makes it possible for us to fit any room or space.

Farm Bureau Sees Need of Water Conservation

KEEPING BOOKS GREAT AID IN BUSINESS OF FARMING

Reasons Why Accounting System Should Be Put In Are Pointed Out

Farming has become a real business, and the farmer who does not run his business in a business-like way is likely to get into trouble.

One of the best ways to keep out of financial difficulties is for a farmer to keep books, so that he can know how he stands financially.

A. N. Nathan, state farm management demonstrator, has written the following on "Farm Accounting":

"Farmers are business men and should keep track of their accounts. 'The business end of their calling has been greatly neglected by the farmers of this county. Many of our farmers do not know what they are making or what are their best crops or what their unprofitable crops, simply because they are not keeping track of their business.

"In order to know what you are doing you must keep a simple system of account. You must know what you have on hand at the beginning of the farm year and what you take in and pay out.

"Furthermore, you should know how your crops and industries are paying you. If there are any leaks in your business, keeping accounts will point them out to you so that you can remedy them. One crop may be paying well and two or three may be losing propositions; stop growing the unprofitable one. If feeding grain to animals pays better than selling the grain, by all means feed your grain.

"The income tax makes it imperative to keep accounts. If a man has a book properly kept, he can fill out his income tax and return it in a few minutes, but without this, it is a long and nerve-racking job. Remembering the time and trouble it took for the man to fill out their returns this year, all the farmers of Orange county should start a simple system of keeping track of their business. For further information, see the farm advisor."

WOMAN, AGE 90, STILL PICKS HUCKLEBERRIES

HAZELTON, Pa., Aug. 13.—Mrs. Mary Stephansky of Eckley, although 90 years of age, still helps to add to the family earnings by picking huckleberries in the woods near the mining village every day. This has been her annual practice ever since she came to America long ago. Despite her advanced years she is still very active and able to get about with the agility of women in the sixties.

SOLDIER MONUMENTS NEWEST TOMBSTONES

SPRINGFIELD, Ill., Aug. 13.—Stone soldier monuments, life size, are the latest thing in tombstones. Two have arrived in Springfield. They are carved from solid rock by an Indiana concern. The figure displays a soldier in uniform, hat, coat, puttees and everything. A gun is carried. It adds a realistic touch to the figure. Not a single flaw can be found in the make-up. The designers even went so far as to give the coat the usual wrinkles. A face likeness may be had if desired. Each monument costs about \$500.

Hair restored to its natural color by the latest process. Mrs. Cora B. Cavins, Frou Frou Shop, 116 E. Fourth St.

We are again making that good, old-fashioned mush bread at the Dragon—12 cents a loaf.

Farm Advisor Will Take Vacation Lasting Two Weeks

FARM Advisor H. E. Wahlberg is going to have a vacation of two weeks, commencing next week. He has been in the harness steadily for a year, and in his work no farm advisor in the state has worked harder or more earnestly. Excellent advancement of the Farm Bureau work has marked the year.

Wahlberg is going first to San Francisco. He will take a trip to his ranch, located in Glenn County.

The Farm Bureau office will keep open as usual. Farm Advisor Wahlberg will be back on the job Sept. 1.

HANDLE CATTLE CAREFULLY IN LOADING

A great many shippers do not get the best returns from their livestock due to the lack of knowledge or care the last few days before shipping and loading for shipment to market. It is with this in mind that the following information has been prepared. The figures given on minimum weights are those in effect at present in most sections. New regulations may go into effect within 60 days which will be uniform the country over, at the same time including privileges favorable to the shipper. We will notify you of this as soon as it becomes effective.

Do not starve cattle the last few days before loading, and then give them a heavy feed the last thing. Especially avoid the use of oats and excessive salt just previous to shipping. The result of this practice is generally that the animal shrinks more during shipment and upon arrival fills up with water and is not as saleable as if a regular feed were supplied. Buyers can easily spot animals which have been treated in this way.

Handle cattle carefully while loading, avoiding the use of clubs, etc., which cause bruises. In a standard 36-foot car hold the weight close to the minimum of 22,000 pounds. The car should be well cleaned. In hot weather it is well to put in an inch or two of sand and dampen it before loading. In winter put in good dry straw or other bedding. If bulls are shipped with other cattle they should be well tied. It is better to ship cattle that have been in the same feed lot together rather than to mix cattle from different feed lots. They will come through in better shape and with less bruises if they know each other than if they are strangers.

In Shipping Hogs

In a standard 36-foot car load as near as possible to the minimum of 17,000 pounds single-deck and 22,000 pounds double-deck. Cars should be well cleaned, and in summer sand should be sprinkled over the floor to a depth of one or two inches and dampened before loading. A small amount of corn in the car is O. K. In loading be very careful in hot weather to avoid over-heating. It is better to tease hogs into the car with corn than to drive them around with sticks. Ice the cars by hanging a few chunks of ice in sacks in the top of the car. In the winter time nothing is necessary more than a good dry car with clean bedding.

The minimum weight for a 36-foot standard car of sheep is 12,000 pounds single-deck and 22,000 pounds double-deck. Sheep should always be loaded in clean dry cars whether it be in winter or summer. The same general rules apply as for cattle.

Shippers generally lose money by either under-loading or over-loading the minimum weight.

REVIEWS BILLS BECOMING LAW OF INTEREST TO FARMS

Of Forty-five Introduced, Some Good Measures Failed of Passage

Out of the forty-five bills affecting the farmer introduced into the last session of the state legislature exactly one-third or fifteen were passed and signed by the governor, thus becoming laws. Of the remaining thirty-two-thirds, or twenty, failed to pass both houses, while the other ten which received favorable consideration, failed of signature by the governor and automatically became pocket vetoes.

Bills introduced but failing to pass both houses probably need but little consideration in this report, although the list includes a number of special merit which failed either on account of lack of support or because of appropriations carried. This being a year of retrenchment, bills carrying appropriations had an especially difficult time. Among the meritorious bills included in this list may be mentioned a bill to increase the minimum compensation of horticultural inspectors to four dollars per day and commissioners to six dollars, an emergency appropriation to fight new dangerous pests or diseases, the Glenn County Farm Bureau sheep-killing dog bill, a bill appropriating money for the study of tractors and agricultural machinery at the university farm, and one providing for high school tractor courses under the state board of education.

A survey of the list of bills passed but becoming pocket vetoes reveals some very interesting and some important legislation which the governor saw fit to veto. Among such bills are the pure seed or seed labeling bill, an appropriation for sending an entomologist abroad to seek parasites for the mealy bug, a very important bill providing for the organization of drainage districts, legislation requiring the use of pure-bred bulls on the range, squirrel extermination districts, a plant disease survey, and a coast counties experiment station.

Bills Becoming Laws

King Estray Bill—Act becomes effective on majority vote in any supervisory district. Amends present estray law, making it possible for an owner to take up stray stock and hold for expense only when his place is entirely surrounded by a four-foot, three-wire fence, or its equivalent.

Pure Feed Bill—Covers all kinds of mixed and patent feeds requiring accurate labeling showing net weight, name and address of manufacturer, per cent of crude fiber, protein, fat, and ash, specific constituents, percentage of corn cobs, rice hulls, ground alfalfa and other ingredients.

Deciduous Fruit Investigations—Provides \$100,000 for the investigation of problems of deciduous fruit culture, including nuts, olives and figs.

Apple Standardization—Amends the present law, establishing standard container.

Fruit and Vegetable Standardization—Supplants present law with much more stringent and exact measure, establishing standards and standard packages for the greater part of our common fruits and vegetables. Defines maturity standards for grapes and oranges and establishes inspectors.

Potato Seed Certification—Appropriates fund to undertake potato seed certification work.

Riverside University Farm—Appropriates \$30,000 for initial payment on lands for the university farm in Riverside county.

Irrigation District Electricity—Provides that irrigation districts may use water for generation of electric power.

Raised-bottom Berry Boxes—Legalizes use of raised bottom container.

Dairy Measure—Rose Dairy Bill—Defines oleomargarine and lays down rules for milk sampling and testing.

Liberty Fair Deficit—Appropriates money to liquidate deficit incurred by liberty fair, on account of influenza epidemic.

Los Angeles Exposition—Appropriates funds for maintenance and support of Los Angeles exposition.

Walnut Codling Moth—Los Angeles County Farm Bureau bill appropriating money for determination and application of control measures for codling moth pest.

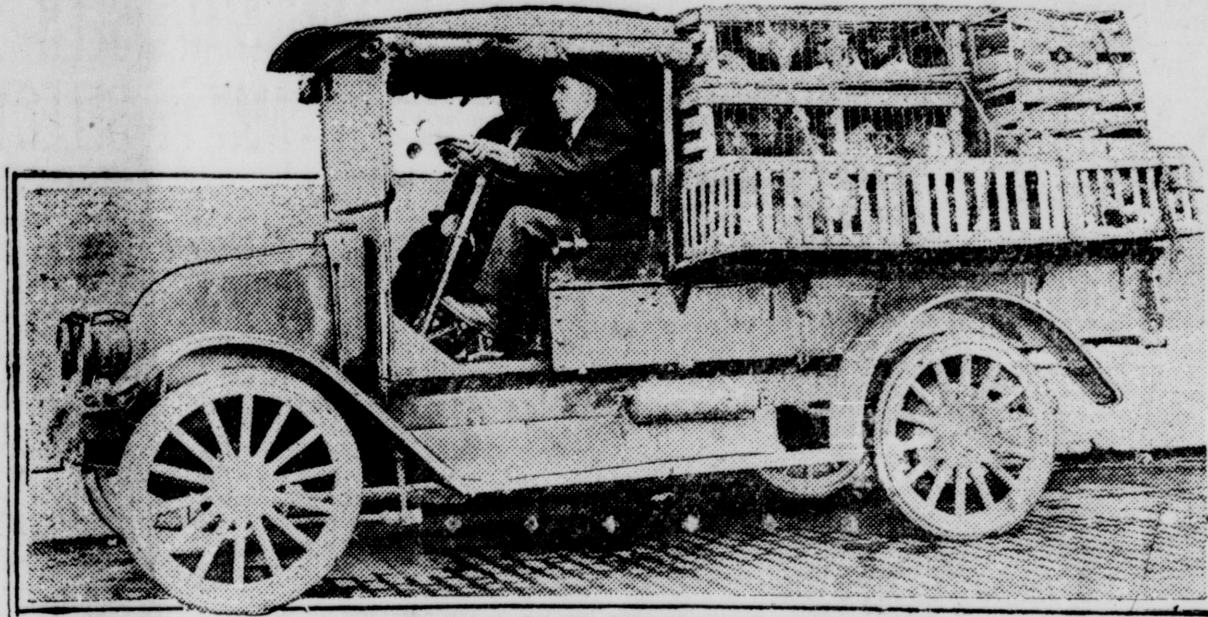

Clean Hay Bill—Regulates baling and weighing of hay, defining what is clean hay.

State Department of Agriculture—Creates state department of agriculture under director of agriculture. Federates present commissions under one head, dividing department into division of plant industry, and division of animal industry.

On the whole it thus appears that

(Continued on Page Ten)

Motor Express to Aid Farmers of County Regular Rural System May Be Established

One of Iowa's Rural Transportation Trucks.

Six Hundred Routes Now In Operation Daily In Some Parts of Country

With the rapid development of motor express and transportation in the last four of five years, no one can say that the motor truck is not going to be a big factor in the future in bringing the farmers of Orange county into daily communication with markets.

Regular routes for gathering of produce may be established. Just what development in the way of co-operation lies ahead, cannot be determined.

The development of the motor express has already resulted in the establishment of a complete rural system by an Iowa farm. The picture shown herewith is one of the Iowa rural transportation trucks. It gathers farm products daily over an established route.

It is stated that at the present time there are over 600 motor express lines in the United States, and that number is going to grow rapidly.

Certainly, the farmer of today has to be a long way from town if he can be classed as isolated. Telephones and motors and good roads have dispensed the farm of loneliness. A man who lives on an Orange county farm is closer to town than are a lot of people who live in Los Angeles and have to depend on street cars for transportation.

RATTLESNAKE BITE KILLS HOLY ROLLER

TUSCUMBIA, Ala., Aug. 13.—Cleveland Harrison, thirty-two years old, a citizen of Colbert county, is dead after two days' suffering from the bites of a rattlesnake at a meeting of the so-called "Holy Rollers" near Tuscumbia. He permitted himself to be bitten to prove that God will save those who trust in Him.

The minister stated there was in the congregation one who had such great faith that he would allow a rattlesnake to bite him, feeling sure he would be immune from the poison, as St. Paul at one time was immune from the bite of a serpent.

Harrison accepted the invitation, and a box containing a rattlesnake, measuring three or four inches around was opened in view of the congregation. Harrison caught the snake just below the neck and it struck him five times in rapid succession on the arm between the elbow and the wrist.

Harrison was at once seized with sickness and after lingering two days died.

You can get Mush bread at the Dragon, 12c per loaf.

CUTTLE'S TALK TO POINT OUT WAY TO STOP THE WASTE

Address Is to Be Delivered at Santa Ana City Hall Friday, This Week

The Orange County Farm Bureau has been thoroughly alive to the importance of water conservation in this county. Its directors know better than anyone that water is king here, and that any movement to better the supply ought to have the solid backing of an institution that is looking to the best interests of the county as a whole.

Because it does believe that water is of paramount importance, the farm bureau has arranged for a public address to be given in Santa Ana next Friday afternoon at the Santa Ana city hall by Francis Cuttle of Riverside.

Cuttle is a conservation expert. Water users of Orange county will learn from him the importance attached to the control of winter water in the surrounding watersheds and the storing of these waters for use during the irrigating season.

Farmers of Orange county generally are aware of the decreasing supply of underground water and the increase in newly developed land. It is needless to say that water conservation should be a matter of great concern. Preparedness, the byword of the day, can well be applied here.

The water supply of the past will not meet the requirements of the future. Steps must be taken to provide for more by saving the waste of millions of gallons of water which have been allowed to run off and be lost to the thirsty land and crying crops.

Francis Cuttle has been invited by the farm bureau to present the subject of "Water Conservation" to the farmers of the county. Everybody interested in this vital subject is invited to hear Mr. Cuttle at the council chambers, city hall, Santa Ana, Friday, August 15th, at 2 p. m.

Should Extend, Perfect Marketing Associations

Editor Register:—I see by announcements in the Register that C. C. Teague of Santa Paula, is to give an address tonight at the Temple Theater, Santa Ana, on the marketing of California Products. There is no man better qualified to speak on this subject than Mr. Teague, and I want to urge every one who is in any way interested in agriculture to be sure and hear him.

Formerly the farmer produced his crops and turned them over to the brokers at the best bid he could get. This resulted in the farmer getting a low price for his crops and the ultimate consumer paying a dear price. To some extent in recent years the

farmer has been able, through his own marketing agencies, to distribute his product himself, and the saving thus effected has made the difference between profit and loss. These farmers' marketing associations should be extended and perfected.

It is no longer enough that the farmer be the "man with a hoe;" he must be a business man as well. Production is only one phase of his business; the selling of his product is quite as important as growing the crop.

Come out and hear Mr. Teague. C. E. UTT, Tustin.

FISHES WHILE ASLEEP, CATCHING BIG TROUT

WATERTOWN, N. Y., Aug. 13.—Donald F. Whipple thinks so much of fishing that he must do it while asleep. He had such great luck fishing for trout at Sandy Pond that he refused to quit when "lights out" was sounded. He went to bed, tied a line with a well baited hook on it around his big toe and tossed the line out of the window. Early in the morning there was a tug, he had hooked a four-pound trout, which was served for breakfast.

FARMERS USING GAS MASKS IN INDIANA

VALPARAISO, Ind., Aug. 13.—Gas masks are in great demand for threshing and shipping the wheat infected with Australian "takeall." All the grain is so saturated with formaldehyde that the workers cannot stand the fumes. It is being shipped to the United States Grain corporation at New York, where all grain from infected districts in Indiana and Illinois is being held pending an investigation.

The Tractor to Buy

Are you one of the many farmers or ranchers who need more power to handle the farm and ranch work properly? Do you have to work with less help than you need?

If so, you need an International 8-16 Tractor. The size for your heaviest load will handle all the work. Internationals use only as much fuel as the load requires. They are made to work with farm machines—the kind you are now using—and special hitchers are provided for all kinds of field and road work. Their belt pulleys are large enough to prevent slippage, run at correct speed, and are set high enough to keep the belt off the ground. They use kerosene or other low-grade fuels which means a big saving in operating expense.

The Company to Buy From

You know that the International Harvester Company have supplied high-grade machines for nearly 89 years. You know that their tractors have furnished satisfactory farm power for more than fourteen years, (about the life of the fuel burning tractors.) The Harvester Company have far more than at stake to market machines of any but the highest standards of quality. They expect to come back some day and sell you other machines. In every sale the Harvester Company tries to build for the future.

For Orchard and Field Work

Hundreds of International 8-16 Tractors are rendering satisfactory service to their owners in this territory. *You owe it to yourself to investigate what the International 8-16 Tractor can do for you, and we will be pleased to have you call at our store or call, write or phone us to have an expert visit you for the purpose of giving you power farming facts. You will not be obligated in the least.

GREAT BENEFIT IS FOUND IN BUREAUS

Some Excellent Reasons For Its Success Outlined In Magazine

(From Hoard's Dairyman)

The more we observe the work of county farm bureaus and comprehend their opportunities, the more convinced we are that agriculture can be best served through such agencies. If every county in the United States were to form a bureau and secure a membership of the leading farmers of the county, guided by officers who would be willing to devote some time to its welfare and then urge the selection of some one to act as the county agent, there would be no end to what such an organization could do for the promotion of better systems of farming, of better marketing, and of better rural life.

When every county shall have a well organized bureau and in every state these bureaus federated into the state organization and these again into a federal organization, the farmer will not have to look constantly to congress or the state for assistance in conducting his affairs. Under such an organization co-operative enterprises of all kinds would flourish and agriculture would be organized.

It is to be regretted that the farmers of this country do not fully appreciate what they can accomplish for themselves under our government if they will but organize and be ready to cast their lots with one another. A few states have organized—New York, Illinois, Iowa—and others are beginning to organize.

Also, a few states prominent in agriculture have so far made no attempt to form farm bureaus; Wisconsin is one of them. It seems rather strange that a state so well organized agriculturally should be so slow in adopting the county farm bureau, for through such an organization every phase of agriculture in the county may be cared for and its development stimulated.

Milk producers' associations, breed associations and cow testing associations are splendid in themselves, but these are units working separately and are not uniting with other branches of agriculture. The county farm bureau will unite these separate organizations and then agriculture will work as a unit.

The California Date Association anticipates a harvest of 200,000 pounds of dates in Coachella Valley, Riverside county.

NURSERYMEN EASILY CAN MEET DEMANDS

A bill recently was introduced in the House of Representatives by the Hon. Norman J. Gould of New York, which provides that \$30,000 be set aside for the use of the Secretary of the U. S. Department of Agriculture, to be used in experimental work connected with the production of "home-grown rootstocks." The Director of the California State Department of Agriculture, alive to the needs of the state and the country, many months past put this vital question straight up to the California nurseryman and fruit grower.

Every day the question is asked: "Can I grow such and such a fruit or crop in California?" The answer is: "You can!"

The wealth of varied soil conditions; the climate, usually lacking the extreme of temperature suffered by other parts of the United States and eastern Europe; the natural barriers afforded by the mountain ranges on the east and the ocean on the west, all contribute to produce ideal conditions for the production of American rootstocks.

It is fortunate, at this time, that steps already have been taken to promote this important phase which contributes so largely to the interest of our fruit-growing industry.

Opportunity is knocking at the doors of the nurserymen of California. Here can be grown the rootstocks not only for the ever-increasing demands of the state, but for those of the United States. Many nurserymen have been quick to see the possibilities for the future in this direction, as the large plantings will attest, and there is every reason to believe that the near future will furnish the ultimate satisfactory solution and the state of California will contribute rootstocks not only to the state itself, but to the entire country.

PITTSBURG WAITERS WOULD ABOLISH TIPS

PITTSBURGH, Pa., Aug. 13.—Pittsburgh waiters have inaugurated a movement whereby the "tipping" practice will be abolished and in its stead a straight salary or salary and commission basis will be used. Members and officials of the Pittsburgh Waiters' Union say it will "elevate their calling." Under the present system of low salaries and tips waiters say they are placed in the light of "cringing menials" whose every move signifies to the diner that tipping is considered a necessary part of the meal. The movement for a salary basis is to be country wide.

June—Why, he couldn't love her more if she hated the very sight of him.—Boston Globe.

SURCHARGE FOR JUICE IS PAID PROTESTING

San Bernardino Water Commission Restless as Bill Grows

SAN BERNARDINO, Aug. 12.—Water commissioners balk at continuing to pay the surcharge levied by power companies, under authority of the State Railroad Commission. A bill including a surcharge item of \$360 for power used by the water department in July was the straw that weighted down the camel's back, and when it was presented last night the commission adopted the following resolution:

Whereas, the Southern California Edison Company and the Southern Sierras Power Company have added to the monthly statements to the consumers covering the consumption of light and power, an authorized surcharge, and

Whereas, the said surcharge is becoming burdensome and an absolute financial loss to consumers, it is therefore

Resolved, that all future payments of said surcharge be made under protest and that this board make such official protest of said surcharge to the Railroad Commission of the State of California and that the city attorney be hereby authorized to take such action as in his judgment is necessary to the end that said surcharge be removed.

"The surcharge has been in effect for perhaps six months," said Superintendent Will Starks last night, "and when it was put into effect it was stated that it would be for but a few months. When it passes \$300 per month it gets to be such an item of expense that the water commission feels that it should no longer be paid, and will therefore carry the matter to the authority that originally allowed it."

The water commission had a contract with the electric company, as did the city itself for lights, but the surcharge was added just the same. The commission sent word of its action to the council last night, but the latter body had adjourned before the message reached the city hall.

MILK MAIZE SEED MAY BE SELECTED

Milo Maize and others of the grain sorghum group are rapidly coming to maturity. Now is the time to think about next year's crop. A little time and care in harvesting will pay well.

Good milo seed sells for seven to ten cents per pound while the grain sells for from two and one-half to four cents. If you wish to increase yields and build up a name for good seed corn, select the heads for your own planting next year. If you are in doubt about what to select, call the farm advisor.

As grain sorghums cross rapidly, fields chosen for selection of seed should be located at least 100 yards from any other variety. Also the field chosen should be free from stray plants of other varieties.

Seed for 1920 should be selected from the field before the main crop is harvested.

These selected heads are harvested in the usual way that the remainder of the crop is gathered. In general, aim at two things, high yield and uniform height. To get high yield, pick the largest, most compact, well filled heads. To get uniformity in height select only from plants of medium growth, avoiding both very tall and very short plants.

Dry the selected heads on trays, taking care, to see that the trays are turned every three or four days. If dried on the ground or on a floor do not pile more than six inches deep and turn with a pitchfork every two or three days until dry. When dry,

SCORES OF TOTS FASCINATED BY PLAYGROUNDS

Help Needed In Work, Is Word of Committee; To Close This Month

Visits to the city playgrounds are of great interest and show the opportunities which could be taken advantage of to keep properly busy and happy scores of little folks, the mothers of many of whom are working and who are spared the anxiety, which they suffer when they know their children are running loose in the streets.

Much good is being done by the make-shift playgrounds, one of which is maintained at McKinley school, in charge of Mrs. Emma Barnes, director of kindergarten at that school and the other at Roosevelt school in charge of Mrs. C. C. Maxwell.

If such good is capable of being accomplished in a small way, how much more could be done by the establishment of permanent grounds with plenty of trained help and up-to-date equipment? That is the way the situation appeals to the committee in charge this year, composed of Mrs. J. William Sackman, chairman; Mrs. R. J. Browne and Mrs. A. H. Small. Mrs. Sackman, who was in charge last year, is an ardent advocate of the playgrounds and in disbursing the small amount of money collected for the purpose, gets the most possible for the small folks. Mrs. Browne and Mrs. Small are capable assistants, both being much interested in Parent-Teacher work.

Only \$245 was in the hands of the committee at the closing of school, gathered from entertainments, donations from the city and from other sources. The attendants are paid for their services for the two months the playgrounds are running and the remainder is spent for supplies. The grounds will close at the end of this month.

Magazines Needed
Donations are always acceptable and books and magazines are badly needed, the latter for making scrap books. "Youth's Companion," "American Boy" and kindred magazines are used at the story hour, 4:30 p. m., the children being very fond of this time of the day. They are especially interested in the serial yarns. All kinds of games are also acceptable.

At McKinley school, in the kindergarten, hang in grain sacks in a dry place. If one wishes to go further, with seed selection individual plants may be tested to improve the strain.

garten room, visited yesterday, Mrs. Barnes said she looked after an average of forty-five children a day, the majority of their mothers being employed during the day. She stated that having so many, she could not segregate them into classes, as was done recently at the vacation Bible school, where there were a number of assistants, and therefore could not keep all the little folks as busy as she would like to do.

Work Fascinating
Mrs. Barnes thought perhaps if women and girls had the matter brought to their attention, those with time at their disposal might enjoy spending a portion of it at the playgrounds. The work is fascinating and Mrs. Barnes would greatly appreciate the help.

The work the children have been doing during the vacation included weaving pretty baskets from raffa and pine needles, making baskets and hats from bright-colored papers obtained from the A. G. Flagg printing office, modeling in wet sand, making stocking dolls and building with large and small blocks.

In making the dolls much ingenuity was shown, the boys making character dolls and the girls the babies their fancy dictated and dressing them according to their individual tastes.

The remainder of this week will be passed in clay modeling.

Out of doors there are various amusements for the children including the swings and "teeter" boards.

KITTEN SAVES LIFE OF MAN FROM SNAKE

HOLYOKE, Colo., Aug. 13.—"White Paws," a kitten, saved the life of H. G. Mills. The kitten, which follows its owner as constantly as a dog, was riding with Mills in his automobile when engine trouble developed. Mills crawled under the car to investigate and found himself within striking distance of a giant rattlesnake coiled. The kitten leaped from the car and sank its teeth into the rattler's head, killing it. The snake, which measured nine feet in length and had twelve rattles, has been sent to an eastern taxidermist for mounting. Pioneers declare it to be the largest rattler ever seen in this section.

REVIEWS BILLS OF INTEREST TO FARMERS

Some Good Measures Out of 45 Introduced Failed of Passage

(Continued on Page Nine)

the farmers of the state have profited by the law-making activities of the last session of the legislature.

The state legislative committee has done valuable work for the farm bureau in aiding materially in obtaining adequate state and federal appropriations for the continuance of the work, having sent a good many letters and telegrams to representatives in the various legislative bodies. Its activities for the walnut codling moth bill undoubtedly aided in getting it passed. Some good work has also been done on a county fire protection ordinance which as yet has not been passed.

At the present time the activities of the committee are largely directed toward the end that some of California's most important agricultural industries, such as the raising of citrus, walnuts, olives and beans receive adequate tariff protection.

Thirty Years Experience

In Building Tractors in California for California Conditions Foretold the Present Highly Developed and Efficient

C. L. Best "25" Tracklayer

WHEELER ADDS "BEST" LINE TO TRACTOR AGENCY

(From the Santa Ana "Register" of August 2nd.)

J. L. Wheeler claims the world's record for a quick tractor sale.

Wheeler recently took the county agency for the Best tractor. Yesterday afternoon he was engaged in unloading the machine at the P. E. depot at Santa Ana.

E. D. Borge passed at about three o'clock, just after the tractor had been gotten out of the car.

He gave the machine the "once over." He was impressed with the style of its build. He struck up negotiations with Wheeler. The machine was driven to Borge's place on First street. Borge, having had experience with tractors, mounted the seat, and operated the machine in his orange grove for a few minutes.

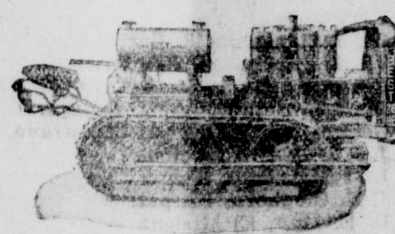

Its low, narrow construction and short turning ability, together with its power, thoroughly captivated Borge and he refused to let the agent take the implement off his plot, although the machine had been brought here primarily to keep on the floor for a time for inspection by the public.

Three hours after meeting Borge, Wheeler was eating supper with a check for the full price of the implement tucked away in his pocket-book.

"That's some record," declared Wheeler this morning. "It was the quickest and easiest sale I have ever made in introducing a new machine into this territory."

High grade materials, accessible, sturdy, general design. Backed by thirty years' experience in building tractors. It looks like a REAL TRACTOR. It looks like a good investment for any farmer—and it is.

BEST MANGANESE STEEL TRACKS WEAR FOR YEARS.

With the steadily increasing price of automobiles and trucks, there is no assurance that the present price on these tractors will long remain in effect.

LOCAL RABBITS CONSIDERED A HEALTHY LOT

Parasites That May Be Found
on Bunnies Are Described
by De Ong

In general, hunters who have killed rabbits in other sections of the state declare that the wild rabbits of this section are a healthy lot. They have few of the parasites that are often found on rabbits in some other parts of the state.

"Parasites Which Affect the Food Value of Rabbits," is the subject of an article by E. Ralph De Ong of the University of California. The article, published in the California Fish and Game publication, reads as follows:

A fringe of small, lead-colored bodies, the size of coarse shot, is frequently seen on the ears of the brush or cottontail rabbits. These are young ticks, the immature form of one of our common species, probably the wood tick (*Dermacentor occidentalis*). After hatching from the egg the young ticks wait in the grass for a passing rabbit or other animal, attach themselves and feed for three or four days, drop to the ground and molt (shed their old skins), then await another chance to feed.

The presence of these ticks has no effect on the rabbit except a slight loss of blood and a temporary annoyance, and as this tick has not been reported in California as a carrier of any disease, it need not be considered as of any significance.

The species of fleas commonly found on rabbits in this state have not been reported as disease carriers so that the presence of these insects can also be disregarded.

One species of botfly (*Cuterebra* sp.) attacks rabbits very commonly. The larvae of this fly is almost black in the mature stage, about three-fourths of an inch long and covered with tiny spines. Brush rabbits taken in Sonoma county up to the last of July were commonly infested with this insect. After the first of August no larvae were found, they apparently coming to maturity at this time. They then leave the host and bury themselves in the ground, emerging the following year as flies. The larvae are found just beneath the skin along the back or breast. The only outward indication of their presence is a slight enlargement at the affected point. No injury to the muscles was noted in any infested specimen, the body being apparently in a normal condition. Wounds of this kind may, however, become infected by bacteria or become infested with some of the flesh feeding flies and in this way produce large tumorous swellings. These latter attacks, when severe, may produce an emaciated condition of the animal which manifestly impairs the value of the carcass for food. But if the larvae are present on the body of the rabbit, without any outward or internal sign of disease, there would seem no reason for discarding the same.

Rabbits are occasionally taken in this state which show the larval form of a common tapeworm (*Coturniculus* sp.) which, when eaten by the dog, produces the adult tapeworm (*Toenia serialis*). The infestation in the rabbit appears as a transparent, bladder-like swelling which may be as large as a hen's egg or larger and is of frequent occurrence in jackrabbits, often spoken of by hunters as "boils." Scattered about on the inner surface of this bladder will be seen white dots about half the size of a pinhead. These are the undeveloped heads of tapeworms, each one of which is capable of developing into a mature tapeworm if taken into the body of a carnivorous animal in a living condition. Hence an animal eating an uncooked rabbit infested with one of these bladder worms will develop a typical case of tapeworm. Thorough cooking will kill the larval form so that the meat can be fed to animals without danger. But the uncooked carcass or viscera should not be fed to animals.

One specimen of brush rabbit had two infestations: one originating in the thigh had grown so large as to displace the muscles, the second formed a large swelling on the surface of the breast. Any infestation of this kind should be regarded with suspicion and the carcass burned or buried deeply so as to be out of reach of all carnivorous animals.

Domestic rabbits and probably the wild form are subject to a disease called coccidiosis resulting from the attack of a sporozoa (*Coccidium ovi-forme*). The symptoms are snuffles, running at the nose and diarrhoea. The inner walls of the intestines show reddened patches with more or less ulceration. The liver is enlarged and the interior has many small round abscesses filled with pus; as the disease progresses the carcass becomes emaciated. Animals affected with this disease should be considered as unfit for food.

An ear mite (*Otodectes cynotis*) is mentioned by Professor Herms as sometimes being abundant enough to cause serious disease or death to domestic rabbits.

FATHER BEATS SON IN HUNDRED-YARD DASH

ABERDEEN, Wash., Aug. 13.—To fulfill the terms of a will made fourteen years ago, Dr. O. R. Austin and his fifteen-year-old son Harold, turned out on Stewart field yesterday in full track uniform and competed in a 100-yard dash. The father won. When Harold Austin was a year old his father boasted to mother that he would be able to travel 100 yards faster than the boy on the latter's fifteenth birthday. Mrs. Austin doubted the statement and the bet was made. Dr. Austin, who recently returned from overseas with the rank of major, proved that army life had kept him in fine trim.

Dr. Roy S. Horton, Optometrist, has resumed his practice at 211-212 Spurgeon Bldg. Eyes examined and glasses properly fitted.

PRESERVE EGGS NOW. METHOD EXPLAINED

Water Glass and Limewater
Usage Set Forth In Department Bulletin

Experiments in preserving eggs conducted by the United States Department of Agriculture in the past year obtained best results from a 10 per cent solution of water glass—that is, one part of commercial water glass added to nine parts of boiled water. Good results were obtained with a slightly weaker solution, using 1 part of water glass to 14 parts of water. Better results were obtained when the water was boiled than when un-boiled water was used.

Earthenware Jars Best Containers. In a test of different containers the earthenware jar gave by far the best and most satisfactory results. Softwood containers, such as candy pails, did not give satisfactory results, while hardwood containers, such as kegs for cider and other beverages, gave much better results than the softwood pails, but did not begin to compare with the earthenware crocks. Even the hardwood kegs gave considerable trouble on account of leakage, and had to be watched constantly, which made them unsatisfactory. Galvanized metal containers similar to new garbage pails were also used with success, but were not quite so satisfactory as the crocks.

Tests with solutions other than water glass were made, and lime-water, both with and without salt, gave satisfactory results. Where un-slaked lime is more readily available than water glass, the lime-water method is an excellent one to use and is cheaper than the water glass. Tests in which the eggs were coated with wax and soap and other coating material did not give nearly so satisfactory results as when the eggs were kept in a solution.

Directions for the use of water glass and limewater are as follows:

Water-Glass Method
1. Select a 5-gallon crock and clean it thoroughly, after which it should be scalded and allowed to dry.

2. Heat a quantity of water to the boiling point, and allow it to cool.
3. When cool, measure out 9 quarts of water, place it in the crock, and add 1 quart of sodium silicate, stirring the mixture thoroughly. 15 dozen eggs, and will serve as a guide for the quantity needed to preserve large numbers of eggs.

4. The eggs should be placed in the solution. If sufficient eggs are not obtainable when the solution is first made, more eggs may be added from time to time. Be very careful to allow at least 2 inches of the solution to cover the eggs at all times.

5. Place the crock containing the preserved eggs in a cool, dry place, well covered to prevent evaporation. Waxed paper covering the top of the crock and tied around it will answer this purpose.

Limewater Method
Pour a small quantity of water on 1½ pounds of unslaked lime and when this is thoroughly slaked add 5 gallons of boiled water. Allow the mixture to stand until the lime settles. Then pour off the clear liquid, add 1 pound of salt and use this for preserving the eggs, throwing away the sediment in the bottom of the receptacle. Use the same directions as recommended for the water glass for putting the eggs in this solution.

Fresh, clean eggs, properly preserved, can be used satisfactorily for all purposes in cooking and for the table. When eggs preserved in water glass are to be boiled, a small hole should be made in the shell with a pin at the large end before placing them in the water. This is done to allow the air in the egg to escape when heated and to prevent cracking.

Eggs will keep from 8 to 12 months in good condition, but are better up to the sixth or seventh month. Dirty or cracked eggs should not be put in to the solution. Water glass costs about \$1.20 a gallon, making the cost of preserving eggs with this material about 2 cents a dozen for the water glass.

Water-glass solution should not be used again the second year unless it has kept quite clear and no odor or thick sediment has developed. The use of limewater is much cheaper than the water-glass method.

SWIMS RIVER TAKING GIRL TO BE MARRIED

MACON, Ga., Aug. 13.—George McKeehan, a returned overseas veteran, was escaping across the Connausauga river hotly pursued by the father of a girl he proposed to marry, when the boat capsized. McKeehan swam back to shore with the girl, caught and righted the overturned boat and cleared it of water. Then putting the girl in the boat he took the painter and swam across with it, in tow. The couple, in a much bedraggled condition, made the residence of "Squire" John L. Henton and were married before the father arrived. The family of Judge Henton supplied dry clothing after the ceremony. The father of the bride decided there was no use opposing such a determined youngster and forgave the couple.

WORKMAN, HODCARRIER HEIRS TO BIG ESTATE

DALLAS, Texas, Aug. 13.—Felix Voorhies, a Dallas mechanic, said to be a distant relative of Pope Benedict, was notified recently he has inherited a \$1,500,000 share in an Italian estate, which was left in trust with the Italian government in 1832. Joseph McDonald, a hod-carrier, of Lake Charles, La., also is said to be heir to \$5,000,000 of the same property.

The estate is declared to be worth \$20,000,000, and other heirs are being sought.

COULDN'T RAISE HER HANDS TO HER HEAD

Mrs. Anderson Suffered More Than
She Can Describe—Tanlac
Ends Trouble.

"Some people may not believe it, but it is the honest truth, I have actually gained forty-seven pounds by taking Tanlac, and after long years of suffering, I am a well and happy woman again," said Mrs. Annie Anderson, whose home is in Parkland, Washington, while in the French Drug Store in Tacoma the other day.

"For many years," continued Mrs. Anderson, "I suffered more pain and misery than I will ever be able to tell about. I had rheumatism so bad in my arms and legs that most of the time I was not able to use either. My arms were frequently so sore and drawn from pain that I couldn't raise my hands to my head, and my legs were in such bad condition that I couldn't walk very much. I had stomach trouble, too, and everything I ate disagreed with me, and there were times when it just looked like I would die from the awful cramping pains I would have after eating. Then, too, I would often be bothered with gas that formed from sour, undigested food. I also suffered with a constant pain in the small of my back, and would very often have such terrible raging headaches that I would have to stay in bed for three or four days at a time. I was so nervous that I never got a good night's sleep. Oh! you have no idea how really bad my condition was, and how much I suffered. I finally got to where I was hardly able to get up at all, and all the medicine and treatments I took didn't give me a particle of relief.

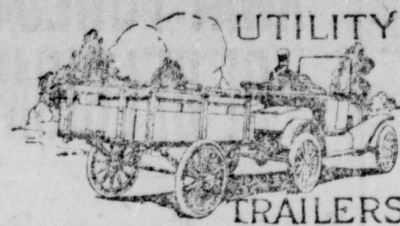

"I was so blue and discouraged when I bought my first bottle of Tanlac that I actually felt like it was my last resort. The first two bottles didn't seem to do me any good at all, but I had my mind made up to give it a fair trial, and I am mighty glad I did. I began to improve on the third bottle and from that time on I continued to get better until now my troubles are all gone. I never have indigestion or sour stomach now, and I eat just anything I want. I don't remember ever having a better appetite, and I thoroughly enjoy all my meals. I am not the least bit nervous now, and I sleep like a child every night. Those terrible headaches are gone, too, and that within itself is a godsend to me. I hardly ever have a sign of rheumatism, and can get around as well as I ever did in my life. I have gained so much in weight and strength that I can easily do all my housework. Yes, Tanlac is wonderful medicine, and I am so happy over my recovery to health by taking it, that I want to tell everybody I meet on the streets about it."

Tanlac is sold in Santa Ana by Rowley Drug Co., in Fullerton by G. W. Finch, in La Habra by R. H. Hillbert, in Huntington Beach by Rigdon's Pharmacy, in Orange by Dittmer's Mission Pharmacy, in Pasadena by A. J. Robinson, in Tustin by Tustin Drug Co., in Brea by Brea Pharmacy, in Buena Park by Rural Drug Co., in Garden Grove by O. H. Anderson and in Laguna Beach by Laguna Beach Pharmacy.—Adv.

SERVICE STRIPES FOR HARVEST HANDS, PLAN

EMPORIA, Kan., Aug. 13.—"Service stripes" for harvest hands—volunteers among the clerks, workers and business men of this city—who got into the harvest fields after the day's work was done in order to "save the wheat crop" will be awarded, Frank Lastutter, who is organizing the work, declared. He has arranged to give a stripe for every day's work in the fields after their regular work was done. The business men will give the money thus earned to charity.

We are again making that good, old-fashioned mush bread at the Dragon—12 cents a loaf.

GERMANS CARRY AWAY FORESTS OF BELGIUM

Forestry Magazine Reviews Destruction of Great Asset

(From American Forestry Magazine)
The Germans practically destroyed the forests of Belgium during their four years' occupation of the conquered territory. A few small areas of wooded land still remain, but the trees are standing only because the Germans in their hurried retreat followed by their speedy acceptance of the armistice, found insufficient time in which to complete their work of destruction.

Several hundred million dollars' worth of trees were destroyed, and the four provinces of Hainaut, Liege, Luxembourg and Namur suffered most severely.

Protests against the wholesale destruction of standing timber, and the deliberate damage of young growth so that it could not survive were made to General Baron von Bissing, governor general of Belgium, by the Belgian Forest Administration and by the Central Forestry Society of Belgium, without avail, and the systematic and scientific destruction of the forests and woodlands continued during the entire period of the occupation.

Belgium's forest area, 1,299,450 acres, constituted about 17 per cent of the entire area of the country, whereas one-fourth of the German empire and one-third of Saxony, Bavaria, Wurtemberg and Baden is forest. As Belgium is without doubt one of the heaviest lumber consuming nations of the world, in view of the density of her population and the needs of her industries, these German forests will undoubtedly be compelled to restore the lumber Belgium has lost, but only the long years can restore her forests. Meanwhile the effect of changes of climate due to loss of her forests may cause damage impossible to estimate, to add to the many injuries already sustained by this unhappy country.

The situation is well expressed by a report of the Central Forestry Association of Belgium, of which Count Visart de Bocarme, the heroic mayor of Bruges, is president, which says: "In 1914 the wind of Liberty still blew in the rich foliage of our forests, which were, alas! soon to become acquainted with the axe of the vandals. For, during that dark period of fifty-two months, after committing every manner of crime, they also perpetrated the monstrous felony of laying low our forests; for let us remember that they have cut down several hundred millions worth of our trees."

"Everything went—venerable shade trees of the roadside, the parks, and the fields, elms and poplars; experimental trees, exotic or curious; historical trees, forest trees such as oaks, ash, beech or of the orchard, such as walnut trees, massive growths of both deciduous and indecous varieties; forests belonging to the nation, to communes, to charitable institutions, or to private individuals; nothing was spared, old or young, tall timber or copice wood, not even the bedding."

"They had set out to leave nothing standing when they were finally compelled to let go under the irresistible pressure of our victorious troops, and in some cases left their cutting unfinished."

The damage done to the various forests is indicated in the following reports of the Forestry Society now available:
"The operations of the occupying nation had begun—one must break one's hand in all things—by cutting down the resinous trees. As early as July 7, 1916, we were informed of the seizure of the resinous forests belonging notably to communes of Chimay and Forges, to Mr. F. Brugmann in the territory of Escalieu and of the Riez, and to Mr. Ch. Malengre in the commune of Macquenois."

"The exploitation of the spruces on the Revers d'Oise and in Fagne, the two cantons belonging to the city of Chimay, and that of the wild pines, in the commune of Forges, was carried out quickly; the case was the same with wild pines, about sixty years old, planted as tall sentinels at the entrance of the oak groves of the commune of Salles and in regard to which they already dispensed with the formality of sending a notice of seizure. This latter cutting was exploited at the end of September, 1916; it was the same way with some spruces which the communes of Seloignes and Forges-Philippe owned on one of the heights of their forests of Thierache."

CUCUMBERS—Local stock, lug boxes, mostly, 20¢ to 25¢.

"It took more time to fell the splendid mass of spruces of the Hauts-Marais. This forest was assuredly the most beautiful of this kind that existed in Belgium, great spruces, planted about 1862, and whose spires seemed to reach the sky in the darkness which their thick branches left on the ground. This beautiful mass no longer exists; all the spruces, and with them large quantities of trees which grew in the forest proper, along walks and borders, all have disappeared for the satisfaction of the needs of the occupier, who never cared, of course, to indemnify the owner."

Apart from the high timber, everything has disappeared: Secular oaks, groups of imposing beeches, tall birches, big maples, rooted saplings, stables, moderns, ancient, superlatives, young cadets, tall timber of young cuttings, reserves of middle age, and old exploitations—everything was chopped down to within twenty inches of the ground and dragged through copes of all ages to the roads by the pitiless cable actuated by a tractor. The copse is broken up, crushed, distorted, and destroyed.

"The forest of Imprechies, a section of the same commune, was cut to the ground, or almost; it was stocked with about the same growth as that of Monceau, though a little less rich in big trees."

"The commune of Beauwelz owned high timber on copse, less thickly planted than the Monceau forests. Of all the oaks, beeches, birches, and maples nothing is left over almost the whole area."

"Such is the work of the Germans, of professionals, for it appears that it was professional foresters who were charged with designing and directing these henceforth famous exploitations."

"Hadn't Much to Say
"You admit you overheard the quarrel between the defendant and his wife?"
"Yes, sir, I do," stoutly maintained the witness.
"Tell the court, if you can, what the husband seemed to be doing?"
"He seemed to be doing the listening."—Argonaut.

LEGAL NOTICES.

NOTICE CALLING FOR BIDS FOR CONSTRUCTION OF CIRCULAR CONCRETE RESERVOIR.
WHEREAS HEREBY GIVEN, that the Board of Directors of the Newport-Mesa Irrigation District of Orange County, California, will receive sealed proposals on or before the 18th day of August, 1919, at 10 o'clock p. m., for the construction of a circular concrete reservoir 150 feet in diameter, 14 feet high, with lumber roof, or 140 feet in diameter, 15 feet high, with lumber roof.

Contractor to furnish with his bid complete plans and specifications showing form of construction, details of foundation walls, floors, sizes and spacing of reinforcement, kind of water-proofing, plans of roofing and framing, time of beginning work and time to complete.

Contractors to guarantee that the reservoir will not leak, and will leave 25¢ of the contract price, or give a bond for 50% of the contract price for one year that the reservoir will not leak.

Payments to be made as follows:
25% when foundations are in;
25% when walls are complete;
25% when reservoir is complete and tested; test to be made within ten days after notice by contractor that same is ready for test;

For general plans and specifications of said reservoir, bidders are referred to plans and specifications now on file in the office of the said Board of Directors of said District, as hereinafter referred to.

All plans and specifications must, after acceptance and before awarding of contract, be approved by the State Engineer of the State of California.

Sealed proposals will be opened on August 18th, 1919, at four o'clock p. m., at the office of the said Board of Directors, at the residence of Donald J. Dodge, on Anaheim Avenue, between Sixteenth and Nineteenth Streets in said District (Postoffice address of the said Board of Directors being "Harper, Orange County, California").

And contract for said work will be let to the lowest, responsible bidder, subject to the approval of the said State Engineer.

The said Board of Directors reserves the right to reject any and all bids. By order of the Board of Directors, **GINNING BUTLER**, Secretary Of the Board of Directors of the Newport-Mesa Irrigation District

OF PROVING WILL, ETC.
In the Superior Court of the County of Orange, State of California.
In the matter of the Estate of Albert E. Taber deceased.

NOTICE IS HEREBY GIVEN, that Friday, the 22nd day of August, 1919, at 10 o'clock a. m., of said day, at the court room of this court, in Department 2 thereof, in the City of Santa Ana, County of Orange, State of California, has been appointed as the time and place for hearing the application of Sarah J. Taber, praying that a document now on file in this court, purporting to be an exemplified copy of the last will and Testament of the said deceased, be admitted to probate, that Letters Testamentary be issued thereon to Sarah J. Taber, at which time and place all persons interested therein may appear and contest the same.

Dated August 11th, 1919.
J. M. BACKS, County Clerk.

NOTICE FOR PUBLICATION OF TIME OF PROVING WILL, ETC.
In the Superior Court of the County of Orange, State of California.
In the matter of the Estate of L. N. Epperson, deceased.

NOTICE IS HEREBY GIVEN that Friday, the 15th day of August, 1919, at 10 o'clock a. m., of said day, at the court room of this court, in Department 2 thereof, in the City of Santa Ana, County of Orange, State of California, has been appointed as the time and place for hearing the application of Minnie M. Knight, praying that a document now on file in this court, purporting to be the last will and Testament of the said deceased, be admitted to probate, that Letters of Administration with the Will annexed, be issued thereon to Minnie M. Knight, at which time and place all persons interested therein may appear and contest the same.

Dated August 4th, 1919.
J. M. BACKS, County Clerk.
CHAS. D. SWANNER, Attorney for Petitioner.

NOTICE TO CONTRACTORS
Sealed bids for the improvement of a portion of Maple Street from First Street on the North to Walnut Street on the South, and the West half thereof adjoining the Rossmore Hotel School, the same to be graded and paved with concrete and asphalt covering according to Specifications 80 and plans, profiles and cross-sections, adopted and approved by the Board of Trustees of the City of Santa Ana, California, will be received in the office of the City Engineer of the City of Santa Ana, California.

Copies of plans, profiles and specifications and also blank forms for use in bidding, said work may be obtained in the office of the said City Engineer and no bid will be considered which is not accompanied with the form herein referred to.

Said bids will be received by the Board of Trustees of said City up to the hour of 5 o'clock p. m. on the 25th day of August, 1919, at the City Clerk's office of the City of Santa Ana, California.

Each bid must be accompanied by a certified check in the amount of 5 per cent of the total bid made payable to the City of Santa Ana, California, as a guarantee that the bidder will perform the work in accordance with the specifications and plans of the Board of Trustees of said Board as a guarantee of faithful performance and a further bond in the sum of 50 per cent of the amount of the contract to secure laborers and material men, with the further bond in the sum of 50 per cent of the amount of the contract to secure laborers and material men, with the further bond in the sum of 50 per cent of the amount of the contract to secure laborers and material men.

The Board reserves the right to reject any and all bids not advantageous to the said City.

By order of the Board of Trustees of Santa Ana, California.
Dated August 7th, 1919.
E. L. VEGLEY, City Clerk.

NOTICE TO CONTRACTORS
Sealed bids for the improvement of Grand Avenue from North Street on the South to Santa Clara Avenue on the North, and a portion of Santa Clara Avenue from a point on the West of the center line of Grand Avenue to a point 486 feet East will be received by the Board of Trustees of the City of Santa Ana, California, up to the hour of 5 o'clock p. m. on the 25th day of August, 1919, at the City Clerk's office in the City of Santa Ana, Orange County, California, to grade and pave Grand Avenue.

The work is to be done in accordance with the specifications and plans, profiles and specifications, and also blank forms for use in bidding on said work may be obtained in the office of the City Engineer in the City Hall of the City of Santa Ana, California, and no bid will be considered which is not in accordance with the form herein referred to.

Each bid must be accompanied by a certified check in the amount of five per cent of the total of the bid made payable to the City of Santa Ana, California, as a guarantee that the bidder who is awarded the contract will enter into the performance of the contract with the City of Santa Ana, California, and in addition thereto the successful bidder will be required to file a bond in the sum of 25 per cent of the amount of the contract with the City of Santa Ana, California, as a guarantee of faithful performance of the contract and a further bond in the sum of 50 per cent of the amount of the contract to secure laborers and material men.

The Board of Trustees reserves the right to reject any and all bids not being advantageous to the City of Santa Ana, California.

By order of Board of Trustees of Santa Ana, California.
Dated this 7th day of August, 1919.
E. L. VEGLEY, City Clerk.

WHI YOU WALK INTO MY PARLOR?
A Mr. Cobb has married a Miss Webb. He knew that they were meant to be joined as soon as the spider here—Tit-Bits.

VILLA PARK BRIEFS

VILLA PARK, Aug. 13—Miss Dora Caldwell and Mrs. J. M. Gilgoly made a trip to Mount Lowe on Monday. They walked to several of the points of interest. In the afternoon they took the pony trip to the top of the mountain and back to the Alpine Tavern, returning home Monday night, very tired, but much pleased with their day's outing.

Mr. and Mrs. W. M. Ryan were pleasantly surprised on Saturday by the arrival of friends from Parsons, Kansas, Mr. and Mrs. F. E. Hart and children, Russell and Vivian, and Christy Appick. The families were neighbors before the Ryans came to California, and it was like visiting the old home for them to visit together. Mr. and Mrs. Hart and family and Mr. Appick expect to locate in this vicinity and are at present stopping at the Sunshine apartments in Orange.

Mr. and Mrs. W. M. Ryan and family and their guests, Mr. and Mrs. Hart and family and Christy Appick, visited San Pedro Sunday afternoon. They went rather late in the afternoon and were not so great when they arrived and a better view of the fleet was obtained.

Rev. Jones and family expect to leave for San Diego Wednesday to spend the remainder of the week with friends there.

Mrs. Mary Royal of Ontario, is spending this week here with her sister, Mrs. Lucas, and brother, Frank. Lord, Mrs. Royal is helping her sister get ready for her trip East, where she expects to make her future home.

Mr. and Mrs. Walter Basile and children, Mr. and Mrs. Wm. Knuth, Jr., and children and Mr. and Mrs. John Holdaway and daughter formed a camp party to Rocky Point Saturday and Sunday, returning home Sunday evening.

Mr. and Mrs. L. O. Hanselman and Bob and Nellie Adams went to Laguna Beach Saturday and stayed overnight, coming home Sunday evening.

Mr. and Mrs. Walter Adams and children motored to Laguna Beach Saturday and Sunday with Mr. and Mrs. J. B. Handy. Sunday Mr. Adams went out with Mr. Handy on his boat.

"Echo," to see the fleet and were within one-half mile of the fleet, getting a splendid view.

Mr. and Mrs. Walter Adams and Mr. and Mrs. Edgar Adams motored to Laguna Beach Tuesday evening. Miss Wilma Adams returned with them after a short visit with Zella Handy.

Mr. and Mrs. E. H. Adams and Mr. and Mrs. Ralph Adams were dinner guests of Mr. and Mrs. Edgar Adams Sunday.

Mr. and Mrs. H. D. Nickols and little Laurence, Mrs. Hattie Nickols, Miss Elizabeth Lee and Mrs. Elma Lee formed a motor party to San Pedro Sunday to see the fleet.

Monday evening Mr. and Mrs. H. D. Nickols motored to Pomona to visit with relatives there.

Mr. and Mrs. P. F. Curl and family went to see the fleet on Saturday. Mr. and Mrs. P. F. Curl and children visited the F. A. Bumgardner family in Orange Monday evening.

HIT BY FAST EXPRESS, GRINS AT UNDERTAKER
BOSTON, Mass., Aug. 13.—After being struck by a fast express train and thrown down a twenty-five-foot embankment in Quincy, Rotnan Gomes, an employee of the New Haven railroad, laughed heartily at the undertaker and crowd who rushed to his assistance with stretchers, and calmly went back to his work replacing railroad ties.

Gomes, struck by the train, the engine struck him a glancing blow, as the engine stalled on the tracks and Rotnan, eyeglasses on his face and a big bottle of tea in his trousers pocket, went spinning down a twenty-five-foot embankment.

Solemnly the train crew wended their way back with an emergency stretcher, and an undertaker who was a passenger on the train was found brushing the dirt from the cork of the cold tea bottle.

BELLS FOR CITY DOGS
ASHVILLE, N. C., Aug. 13.—As unreasonable as it seemed that every canine resident of this city must wear a bell during the next year, and to prove their earnestness they have purchased a large supply of the necessary ornaments for distribution among the owners of dogs here.

Watch These Laws

Here are the new amendments which went into effect on Tuesday, which all motorists are required to observe, say officials of the Automobile Club of Southern California:

No more turning in the middle of the block.

Thirty days only allowed to conform to new headlight regulations.

Announcement of patent headlight devices to be made on Tuesday.

Spotlights must comply with law.

Thirty-five-mile speed limit operative only in daytime and under certain conditions.

No baggage to extend from left running-board more than twelve inches from body of car.

Must stay fifteen feet at least behind car ahead on suburban roads.

LIST OF AUTOMOBILE HEADLIGHT CONTROLLING DEVICES APPROVED FOR THE STATE OF CALIFORNIA

Devices—	Maximum permissible candlepower of lamps.	Minimum permissible candlepower of lamps.	Recommended candlepower of lamps.	Required adjustments.
	Vacuum.	Gas filled.	Vacuum.	Flaments. Tilt feet and beams. In 100 ft.

Passed With Highest Honors AND THEN SOME

The highest possible specifications for lamps and no tilt has been given the Osgood Lens by the State Motor Vehicle Department. But the official certificate of approval does not tell the complete story of Osgood safety and efficiency. It does not or could not explain why it is better than any other lens on the market. This wonderful lens throws your light straight ahead on a level—never more than waist-high.

OSGOOD LENS

No Glare, No Dimmers, 74% More Road Brightness.

Rays Thrown One-third of a Mile, Never More Than Waist High.

SHALER LENSES

are best suited for the

Ford
THE UNIVERSAL CAR

The Ford Sedan, with electric starting and lighting system, demountable rims with 3 1/2-inch tires all around, is the ideal family car because of its general utility and refined and comfortable equipment. Finely upholstered. Plate glass windows. An open car in the spring, summer, and early fall. A closed car in inclement weather and winter. Rain-proof, dust-proof. In the city or the country, a family car. The low cost of operation and maintenance is not the least of its charms. Shaler lenses are best suited for Fords.

Macbeth Lens - - 10 to 32 c.p. bulb can be used

Osgood Lens - - - 10 to 32 c.p. bulb can be used

The above lens are a signal to every traffic officer that the law has been fully complied with, without provisions of tilting headlamps and low candle power bulbs, etc. The driver who is equipped with the above lens goes on his way unmolested.

GLARELESS

McKee

Primolite

Some of these lenses are better than others. All of them will pass the state test. But the glareless is the one we pin our absolute faith to. When we put a set of Glareless on your car we know there'll be no come-back. They'll stay put, and they'll give unbounded satisfaction for all time. You can buy Glareless lenses of us or any of the dealers whose names you'll find below. Do not wait to have them put on. They are hard to get and if you postpone the matter until the last day your car may have to stand still for awhile. You positively cannot drive without Glareless lenses after the 22nd.
